Thank you for giving me chance to review the paper. This paper with title "Influence of Image-building, Financial Stability and Curriculum development on Education Management with Moderating effect of Educational Leadership: An Islamic Perspective", was conducted to examine Influence of Image-building, Financial Stability and Curriculum development on Education Management with Moderating effect of Educational Leadership: An Islamic Perspective.

There is room for improvement in many of the paper sections. There is probably too much background explanation, and there is quite a bit of space wasted in repeated text or ideas that have been already presented. The fact that grammar is weak, make some of the sections even less attractive to read. I would recommend asking the author/s fixing the following issues:

- Use Eurasian Journal of Educational Research editorial format requirements very strictly
- Abstract: There are grammar issues. Also, some sentences are very repetitive. Please double-check the three last sentences to make the text clearer.
- References: There are some non-English references cited, which I could not double-check. Please make sure that non-English references are necessary.
- Body: There is a lot of text (full sentences or even sequence of sentences) repeated (word by word) in different sections.
- Figures: Some figures are very blurry to be seen, high resolution pictures are needed for publication and explanation such as Figure 1. In fact on text you have figure 1, figure 2, and figure 4 and missing figure 3. Please include it otherwise change the order of figure 4 to figure 3.
- While literature review should be in the separate section Add literature review section with study hypothesis or scientific questions elaboration
- Discussion section need more comparison to other studies
- Add study Conclusion (including summary, recommendations, study limitations and future study directions)

Recommendation: **Revisions Required**

Husnul Yaqin <husnulyaqin@uin-antasari.ac.id>
