

CHAPTER V

CLOSURE

A. Conclusion

Based on the findings and discussion, it can be concluded that the teachers implemented E-Learning madrasah. The implementation of E-Learning madrasah is done by the teachers in pre and while activities. In pre-activities the teacher check students presence and greet the students. Moreover, in while-activities, the teacher taught reading through giving the link by using E-learning madrasah. Another teacher use video conference to teach speaking skills.

Moreover, the difficulties the English teachers faced in the implementation of E-learning madrasah application in English Language Teaching are the lack of facilities, skills and quality of students in technology, internet connection problem, and the lack of e-learning madrasah itself.

B. Suggestion

Based on the discussion and conclusion, the researcher gives suggestions as below:

1. For the teachers of MAN 2 Banjar

The teachers are suggested to use madrasah E- learning maximally since the features of its application is really interesting and easy to use. The teachers need to interact more and give motivation to the students in online learning using madrasah E-learning.

2. For the institution of MAN 2 Banjar

Institution is suggested to motivate the teachers in implementing and exploring madrasah e-learning so that all of the teachers can use the application maximally. In addition, the institution is suggested to give the training to the teachers and explanation more to the students on how to use the application.

3. For the students

The students are suggested to be more active in participating in e-learning. The students are also expected to build their self-awareness in online learning so that they will get and understand the lesson during online learning.

4. For the Future Researchers

The future researchers are suggested to explore more study about online learning and English language learning.
