B. Suggestion

1. For teachers

The teacher is expected to continue and more develop the variety of online assessment and the media that is going to be used. The teacher also expected to still maintain and improve student discipline in doing online assessment. Teacher may improve students discipline by giving punishment for the students who did not join the class.

2. For institution

The technology has develop rapidly, so the other teachers should be introduced in the model of online or blended learning to create fresh learning. It is better if the institution supports the innovation by giving enough facilities.

3. For future researcher

This research analyses the way of the teachers doing the online assessment in general. For the other researchers who will conduct a similar topic with this research, it is better if they discuss deeply for only an area of topic.
