

CHAPTER V

CLOSURE

This chapter presents the conclusion of the study and suggestion. First, the researcher would provide the conclusion based on the elaborated data in the previous chapter. Next, the researcher would give suggestion to future researchers who want to research on students' perception towards the use of machine translation in translation class.

A. Conclusion

Based on the discussion on findings, there are some conclusions as follows:

1. This study find out the advantages of using machine translation in the process of English learning: machine translation help students understand faster, machine translation makes students aware of grammatical errors, machine translation teaches students to understand how to harmonize translated languages and improves students' vocabulary. This study also find out the disadvantages of using machine translation: machine translation makes students confused, sometimes not able to translate correctly, reduces writing practice and frequent grammatical errors that require students to work harder.

B. Suggestion

1. The English teacher

The result of this research expected to be useful information for the Translation lecturers to know the students' perception about the use of

Machine Translation in the process of English language teaching and learning. This research can be the basis for the lecturers in one of private universities in Banjarmasin to evaluate and to be aware of the students' needs in using Machine Translation in the learning process. Then, the teachers can make preferences of using Machine Translation in language learning process by the students based on the information in this research.

2. The students

This research provides the information that English Education Department students' might need to be aware of using machine translation in the process of English language teaching and learning. The researcher hopes the information from this research can be a consideration for them in using Machine Translation. If the students know about the advantages and disadvantages in using Machine Translation, they will be able to use it wisely.

3. Next researchers

The result of this research was hopefully to interest the other researchers for conduct the research about translation. Then from this research, the other researchers can research about teacher or lecturer perception about Machine Translation. In addition this research becomes a reference for the other researchers.
