Assalamu'alaikum Warahmatullah Wabarakatuh

Sehubungan rencana penelitian yang akan dilaksanakan oleh mahasiswa (i) dalam rangka penyusunan skripsi, maka dengan ini kami mohon izin serta bantuan Bapak/Ibu agar kiranya berkenan memberikan informasi/data yang diperlukan oleh :

Nama : Dina Sofia
N I M : 170102030157
Jurusan : S1 Tadris Bahasa Inggris (TBI)
Fakultas : Tarbiyah dan Keguruan
Alamat : Jl. Sultan Adam Komplek 8 Malkon Temon No. 2 RT. 23 RW. 2 Kel.
Surgi Mufti Kec. Banjarmasin Utara Kota Banjarmasin

Demikian surat ini kami sampaikan, atas perhatian dan perkenan Bapak/Ibu serta kerjasamanya yang baik kami ucapkan terima kasih.

Wassalamu'alaikum Warahmatullah Wabarakatuh

Wakil Dekan Bidang Akademik
dan Kelembagaan,

Atmad Muradi

Tembusan :
Dekan Fakultas Tarbiyah dan Keguruan UIN Antasari.

Appendix III
Interview Guideline

1. What is Machine Translation?
2. What the function of Machine Translation?
3. What kind of Machine Translation do you use? Why?
4. How important Machine Translation in translating the text? Why?
5. How do you use Machine Translation in translating the text?
6. How often do you use Machine Translation in translating the text? Why?
7. What do you think about using dictionary in translating the text? Why?
8. Does Machine Translation make you lazy to translate directly or using dictionary? Why?
9. Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?
10. Do you always recheck result of Machine Translation before you submit it? Why?
11. What are advantages of using Machine Translation in Translation class?
12. What are disadvantages of using Machine Translation in Translation class?
13. Does Machine Translation is the best media in translating text? Why?
14. Does Machine Translation is have bigger advantages than disadvantages? Why?

Appendix IV
Result of interview

Name : AN

SRN : 170102030925

No.	Questions	Answer
1.	What is Machine Translation?	A tool or mediator to translate or interpret a source language to target language
2.	What the function of Machine Translation?	To make easier the people to find the meaning of the words or sentences
3.	What kind of Machine Translation do you use? Why?	Google translation Why? Because I like something instant
4.	How important Machine Translation in translating the text? Why?	Quite important, if in translation class, it will make me to look for the meaning of the words, and make it perfect by thinking about the real meaning, because frequently the meaning in the Google translation doesn't serve the proper meaning. but the apps can depict what is the real meaning
5.	How do you use Machine Translation in translating the text?	Sometimes translate word by word or in sentences
6.	How often do you use Machine Translation in translating the text? Why?	Rarely, if i need to make perfect my sentences i will translate it, and fix it by my knowledge of grammar
7.	What do you think about using	I'm not sure because it will take

	dictionary in translating the text? Why?	much time
8.	Does Machine Translation make you lazy to translate directly or using dictionary? Why?	Yes, because I like something instant
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Yes, because i can find the correct one, but I will check the text then
10	Do you always recheck result of Machine Translation before you submit it? Why?	Yes of course, because the machine translation sometimes didn't provide the proper meaning or real meaning
11	What are advantages of using Machine Translation in Translation class?	Enhance vocabulary, ease the students to find synonym etc
12	What are disadvantages of using Machine Translation in Translation class?	Sometimes, when we translate a language to target language, the meaning doesn't provide the real meaning, especially in idiom
13	Does Machine Translation is the best media in translating text? Why?	Yes, because if i compare with another like alpa-link, manual dictionary, those are rather be hard to use
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Advantage, since it can translate much words, even in paragraphs

Name :RM

SRN : 170102030457

No.	Questions	Answer
1.	What is Machine Translation?	Machine translation is a branch of computational linguistics that studies the use of computer software to translate text or speech from one natural language to another
2.	What the function of Machine Translation?	To make it easier for people to translate a sentence or word
3.	What kind of Machine Translation do you use? Why?	I'm only use one machine translation, Google translate because it is simple
4.	How important Machine Translation in translating the text? Why?	Quite important, because to make it easier for me to translate a word that i don't know what it means
5.	How do you use Machine Translation in translating the text?	Sometimes by typing or by taking photos of the text I want to translate
6.	How often do you use Machine Translation in translating the text?Why?	Sometimes, only if I don't know the meaning of a word or sentence
7.	What do you think about using dictionary in translating the text? Why?	There are disadvantages and advantages of using a dictionary in terms of translating words. The advantage is that the translation of words in the dictionary is more accurate than using machine translation. The downside is that it takes a little more time to find the translation of the word I want to

		translate
8.	Does Machine Translation make you lazy to translate directly or using dictionary? Why?	Not really, because like what I said above, that sometimes the translation of the machine translation is not in accordance with the actual translation.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	I cannot describe this one. It's depend on situations.
10	Do you always recheck result of Machine Translation before you submit it?Why?	Of course, because I am not 100% sure that the translation from the translation engine corresponds to the true meaning
11	What are advantages of using Machine Translation in Translation class?	To shorten the time in translating the word I want to know its meaning and choose which word is more suitable to use
12	What are disadvantages of using Machine Translation in Translation class?	As for the disadvantages in using machine translation that is, more or less we may experience a little dependence in terms of using it. And the downside of machine translation itself is that sometimes the word we translate is not in accordance with the actual translation.
13	Does Machine Translation is the best media in translating text? Why?	Not really, because dictionaries are also one of the best mediums when it comes to translating a text.

14	Does Machine Translation is have bigger advantages than disadvantages? Why?	It is possible, because using machine translation is more efficient in terms of translating words or sentences from one language to another language

No.	Questions	Answer
1.	What is Machine Translation?	Machine translation is software or hardware that functions to translate some language to another language.
2.	What the function of Machine Translation?	To translate one language to another language
3.	What kind of Machine Translation do you use?Why?	UDictionary app and Google translate. Because it's easy to use.
4.	How important Machine Translation in translating the text? Why?	Really important. Why? Because using machine translation more easier than using dictionary to translate word or text
5.	How do you use Machine Translation in translating the text?	Sometime translate word by word and arrange the whole text meaning by myself. And sometimes just copy the whole text to get the translation
6.	How often do you use Machine Translation in translating the text?Why?	Everytime I need. Why? Cause i like to use it
7.	What do you think about using dictionary in translating the text?Why?	I think it's difficult and good in the same time. Why? Because it's difficult to translate the text word by word, but also good to memorize many words from foreign language.
8.	Does Machine Translation make you lazy to translate directly or using dictionary?Why?	Yes. Why? because machine Translation easier to use
9.	Do you more confident use	Yes, Why? Cause the result is better

	Machine Translation in producing a text than translate directly in Translation class? Why?	than i translate directly
10	Do you always recheck result of Machine Translation before you submit it?Why?	Yes. Why? Cause machine cannot apply grammar 100% correctly
11	What are advantages of using Machine Translation in Translation class?	Easy to use, comfortable and simple to use.
12	What are disadvantages of using Machine Translation in Translation class?	Not really memorize the foreign language because always using machine translation
13	Does Machine Translation is the best media in translating text?Why?	Yes. Why? Cause comfortable and easy to use
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Yes. It is because machine translation easy to use and comfortable

Name : RK

SRN :170102030100

No.	Questions	Answer
1.	What is Machine Translation?	Machine Translation is tools that can use for translate language based on technology - Internet
2.	What the function of Machine Translation?	Machine translation is easy to use, comfortable and simple to find the meaning of the words or sentences. Also machine translation is good to translate the language quickly and instantly
3.	What kind of Machine Translation do you use?Why?	I have used Google Translate and My Dictionary
4.	How important Machine Translation in translating the text?Why?	Quite important because it can help translate words and sentences faster
5.	How do you use Machine Translation in translating the text?	Enter the word/sentence you want to know the language translation for and then analyze the translation again whether it is correct or not.
6.	How often do you use Machine Translation in translating the text? Why?	I often use machine translation especially when I come across sentences that I don't understand. Why do I use machine translation? Because machine translation is very helpful for me to understand a text easily and quickly
7.	What do you think about using dictionary in translating the text?	Using a dictionary in translating text is quite good because it can equally

	Why?	help in translating languages. It can be more detailed because it is translated one word. It's just that the drawback is that it takes a lot of time to translate it.
8.	Does Machine Translation make you lazy to translate directly or using dictionary? Why?	Actually machine translation doesn't really make me dependent to always use it when translating something. If I already understand the point of the sentence, I don't use it. It's just that machine translation is a very good alternative to use when translating languages compared to having to open a dictionary first because machine translation can translate one sentence or even paragraph in one translation
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Yes because my ability in the language is still lacking. So with machine translation, some sentences or grammar that I missed when I translated can appear right away. For example, if you miss the -es in the sentence do she knows. It should do she know. With machine translation can usually help
10	Do you always recheck result of Machine Translation before you submit it? Why?	Yes. I always check again for machine translation. Because to be more sure whether the answer is right or not. In particular, the language

		used by machine translation is usually too formal. So if the translated text is relaxed or informal, the translation must be adjusted again.
11	What are advantages of using Machine Translation in Translation class?	Fast and Instant, sometimes it can also be useful to increase vocabulary personally
12	What are disadvantages of using Machine Translation in Translation class?	Some translations are sometimes inaccurate or inaccurate. In some cases, it can make people lazy to think because they feel that there is an instant and fast translation tool
13	Does Machine Translation is the best media in translating text? Why?	Not really. Because in each translation, I still have to re-check the results of the translated sentences.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Yes. Because it's fast, easy and instant. The lack of only needing to re-check the translation results

Name :GN

SRN :170102030627

No.	Questions	Answer
1.	What is Machine Translation?	Machine translation is the tool for translating word/sentences/paragraph from one language to another language.
2.	What the function of Machine Translation?	For translating the words, sentences or paragraph from one language to another language
3.	What kind of Machine Translation do you use?Why?	Google translate. Because it's easy to use.
4.	How important Machine Translation in translating the text? Why?	I think it is important, because in translation class we must translate the word or sentences fast, if I use dictionary book it will take more time.
5.	How do you use Machine Translation in translating the text?	If I want to translate words, I write the words in machine. If I want to translate a paragraph, I will copy the paragraph or take a picture of that paragraph.
6.	How often do you use Machine Translation in translating the text? Why?	I just use machine translation if I need the meaning of sentences or text fast, for example in the examination if it permitted to use machine translation I will use it, because if I use dictionary it will take more time I think.
7.	What do you think about using dictionary in translating the text?	Actually it is good, but if we use dictionary book it will take more time.

	Why?	If i use dictionary, usually I just use digital dictionary in my phone, because it is faster.
8.	Does Machine Translation make you lazy to translate directly or using dictionary? Why?	Not really, if I have more time to translate the sentences or the text, I prefer using dictionary to machine, because the meaning in dictionary is easier to remembered for increasing our vocab.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Not really, I usually try to translate directly first, after that I use machine translation to reassure the result, but if I don't have more time I use machine directly.
10	Do you always recheck result of Machine Translation before you submit it?Why?	Yes of course, before I submit the text I always recheck the result, because usually by using machine translation, there are some words or the structure that are not appropriate.
11	What are advantages of using Machine Translation in Translation class?	It makes our works faster, because by using machine translation we can translate text directly not only word by word.
12	What are disadvantages of using Machine Translation in Translation class?	It makes me lazy to open dictionary book, and the result of translating machine sometimes incorrect, so we must rearrange the result to make a good sentence.

13	Does Machine Translation is the best media in translating text? Why?	For overall the text I think yes, because we can see all of the meaning, but we shouldn't use the meaning in the machine fully, we must recheck the meaning and also the structure of that translation.
14	Does Machine Translation is have bigger advantages than disadvantages?Why?	For me, the advantage is bigger than disadvantage, because it really helps me in translating fast sentences even the text.

No.	Questions	Answer
1.	What is Machine Translation?	Machine Translation is a tool or application that can help us to translate a word or language from one language to another.
2.	What the function of Machine Translation?	For translate a language to another language.
3.	What kind of Machine Translation do you use?Why?	Google translate. It's because it easy to use.
4.	How important Machine Translation in translating the text? Why?	Very important maybe, because that can make it easier for us to know the words or sentences we don't know or understand.
5.	How do you use Machine Translation in translating the text?	I usually immediately translate all reading texts but after that they are adjusted again with the existing rules and with a simpler language use.
6.	How often do you use Machine Translation in translating the text? Why?	Very often, to have more confidence in the language spoken and to enlarge my vocabulary.
7.	What do you think about using dictionary in translating the text? Why?	It's just, too long for a beginner who doesn't have much vocabulary to translate a sentence but really help for people who already have many vocabularies so a dictionary helps them to remind.
8.	Does Machine Translation make	Of course does not, I still use a

	you lazy to translate directly or using dictionary?Why?	dictionary very often or direct translation.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Don't, I usually translate directly first and when I need a translation machine then I combine both.
10	Do you always recheck result of Machine Translation before you submit it?Why?	Of course, I will make sure the Grammar or the election of the word in the translation machine.
11	What are advantages of using Machine Translation in Translation class?	The advantage makes it easier.
12	What are disadvantages of using Machine Translation in Translation class?	Usually the grammar is still imperfect or irregular.
13	Does Machine Translation is the best media in translating text? Why?	It would seem so, because it would make it easier and shorter in time for a direct translation.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Does not really, because some machine translations are still very ineffective to use.

SRN :170102030154

No.	Questions	Answer
1.	What is Machine Translation?	Machine Translation is a translation tool that you can use to translate a word or sentences from one language to the other.
2.	What the function of Machine Translation?	It's to make it easier for us to translate a word or sentences from one language to the other.
3.	What kind of Machine Translation do you use?Why?	Google translate sometimes. But usually, I use Google docs translate tool.
4.	How important Machine Translation in translating the text? Why?	I think it's not really important because the aim of students to study translation is for them to be able to translate a word or sentences from one language to the other by themselves. I prefer to use dictionary.
5.	How do you use Machine Translation in translating the text? Translating word, sentence or paragraph? Indonesia to English or English to Indonesia?	Sometimes I use Google docs to translate any document from one language to the other. It's easy to use but you can't expect the grammar will be correct. So I check the grammar after I use the Google docs translation tool by myself.
6.	How often do you use Machine Translation in translating the text? Why?	I'm not using it really often. I just use machine translation when I really don't know the meaning of the

		words.
7.	What do you think about using dictionary in translating the text? Why?	I think even though it's not as quick as machine translation, it helps students to use their brains while translating a word or sentences. That's why I prefer to use dictionary in translation class
8.	Does Machine Translation make you lazy to translate directly or using dictionary?Why?	Not really. Actually I prefer to use dictionary than machine translation.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	No I don't. I don't really trust the translate results from machine translation. I prefer to use dictionary or try to guess the meaning of sentences by myself.
10	Do you always recheck result of Machine Translation before you submit it?Why?	Yes. Because sometimes the grammar of machine translation is inaccurate.
11	What are advantages of using Machine Translation in Translation class?	It's easier and quicker for students to translate a word or sentences from one language to the other.
12	What are disadvantages of using Machine Translation in Translation class?	It makes students lazier to translate a word or sentences by themselves.
13	Does Machine Translation is the best media in translating text? Why?	In terms of the practicality, yes. It's really practical and easy to use. But, sometimes the results are inaccurate.

14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Not really. For me the only advantages that they have are the practicality and easy to use. But, there are more disadvantages such as make people lazy to translate by themselves, the grammar sometimes inaccurate, and also make people less confident with their own abilities to translate by themselves.
----	--	---

Name : MR

SRN :170102030029

No.	Questions	Answer
1.	What is Machine Translation?	Technology used to assist in translating one language into another.
2.	What the function of Machine Translation?	Help translators in translating to make it easier and faster.
3.	What kind of Machine Translation do you use?Why?	Applications one of them is Google translate. It is because Google translate easy to use.
4.	How important Machine Translation in translating the text?Why?	It is quite important, because using a machine translator is faster and has many advantages in helping the translator in translating.
5.	How do you use Machine Translation in translating the text?	Usually I don't directly use the machine translation to translate the text at once, but I only translate a few words that I think are foreign and I don't know the translation. Because sometimes there are idioms and the like that can't be interpreted word by word.
6.	How often do you use Machine Translation in translating the text? Why?	Very often, because I doubt my translation, plus in the translation class there are a lot of foreign vocabulary and very similar meanings.
7.	What do you think about using	That's ok, but it really slows down a

	dictionary in translating the text?Why?	job.
8.	Does Machine Translation make you lazy to translate directly or using dictionary?Why?	No, because for me using a machine translate saves time, because in class we only have limited time, so using a machine translate is faster but it doesn't make me lazy to translate directly, if it's homework, I will try to translate directly if it's difficult just use the translation engine.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	I'm not really confident with direct translation, because usually the results of the translation using a machine translation will be checked again and simplify the sentence or the result of the translation.
10	Do you always recheck result of Machine Translation before you submit it?Why?	Sure, because the results from the machine translation are not always good, sometimes the sentences look complicated so they need to be checked and simplified again
11	What are advantages of using Machine Translation in Translation class?	Students can get a translation of a text faster and students will get more explanations for the one word they are translating than using a dictionary.
12	What are disadvantages of using Machine Translation in Translation class?	It will make students a bit more lazy and monotonous in learning and thinking about guessing the translation of a text.

13	Does Machine Translation is the best media in translating text?Why?	No, direct translation is much better, but machine translation gives an idea of the translation results.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Yes, because it has the big advantage of being able to get translated results faster and can save time. This applies to wise used, otherwise it doesn't help improve the user's abilities at all it just makes it lazy.

Name : EF

SRN : 170102030201

No.	Questions	Answer
1.	What is Machine Translation?	A tool that could help us to translate a word that we do not know its meaning. whether its meaning in our mother tongue or just change it into other languages.
2.	What the function of Machine Translation?	It helps us when we struggle or feel confused because do not know the meaning of some words that we've never known before.
3.	What kind of Machine Translation do you use?Why?	I'm using application namely Kamusku.
4.	How important Machine Translation in translating the text? Why?	It's such a helping instrument. But not suggested to use frequently I think. use machine translation just when you really need it, so we could keep ourselves on progress and don't too depend on machine translation
5.	How do you use Machine Translation in translating the text?	I use machine translation just for searching words
6.	How often do you use Machine Translation in translating the text? Why?	Not too often but sometimes, I use MT when I feel difficult to arrange sentences or there are some words that I don't know the meaning in Indonesia or English.
7.	What do you think about using dictionary in translating the text? Why?	It is good, especially if we use dictionary English - English. But dictionary is different from machine

		translation. so I think it will take more time to search words.
8.	Does Machine Translation make you lazy to translate directly or using dictionary?Why?	Actually yes. If I often use it and it become my habit, I tend to be lazy to practice use my ability to translate.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Actually I am more confident if I could produce text directly. But need to use machine translation too if I am lost.
10	Do you always recheck result of Machine Translation before you submit it?Why?	Not always, but if I am not sure.
11	What are advantages of using Machine Translation in Translation class?	Our task will be easily and we will get more meaning of words.
12	What are disadvantages of using Machine Translation in Translation class?	Because machine translation makes our task easy, sometimes we couldn't be serious about the task
13	Does Machine Translation is the best media in translating text? Why?	In my opinion, actually not really the best, but it's a good option as well. Because I tend to use MT only for word that I couldn't reach to convey.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Yes because with MT we can know the new vocabularies. Because of that we also can increase our vocabulary.

Name : AN

SRN :170102031165

No.	Questions	Answer
1.	What is Machine Translation?	MT is a tool that using to facilitate in translate a language to other language.
2.	What the function of Machine Translation?	To facilitate, to help someone translating a language to other language.
3.	What kind of Machine Translation do you use?Why?	Google translate, e-dictionary. Because it's simple and easy to use.
4.	How important Machine Translation in translating the text? Why?	Important, because our knowledge is have limited. So, to know the meaning of the language more faster we can use MT.
5.	How do you use Machine Translation in translating the text?	Using handphone, like copy paste the text or just texting the text in MT.
6.	How often do you use Machine Translation in translating the text? Why?	Quite often, because to get a fast translation a machine translate is very useful even though sometimes the translation results are strange but in general conclusions can be drawn quickly
7.	What do you think about using dictionary in translating the text? Why?	It will take a lot of time, because dictionary only translate word by word not text and dictionary have limited in translate. Dictionary is not efficient to user because it's hard to carry out everywhere (heavy).
8.	Does Machine Translation make	It can be said yes but at first I will try

	<p>you lazy to translate directly or using dictionary?</p> <p>Why?</p>	<p>to translate directly then if I don't know what it means I use the e-dictionary on my handphone so it can be more efficient and saving time</p>
9.	<p>Do you more confident use Machine Translation in producing a text than translate directly in Translation class?</p> <p>Why?</p>	<p>I think yes, because it is undeniable that humans have limitations in language and vocabulary, so it is very necessary to have a fast automatic translation machine but not 100 percent sure and confident with the translation results.</p>
10	<p>Do you always recheck result of Machine Translation before you submit it?Why?</p>	<p>Yes, it's a must. Because machine translate usually only translates literally, the results that come out may not necessarily match the intended context.</p>
11	<p>What are advantages of using Machine Translation in Translation class?</p>	<p>To make our task easier and faster.</p>
12	<p>What are disadvantages of using Machine Translation in Translation class?</p>	<p>MT gives quite confusing results of the translate and not accurate translation. Sometimes machine translation look very robotic and make no sense. MT is has limitation on the number of characters translated. Example Google translate only provides a maximum of 5000 characters inserted in the translation field.</p>

13	Does Machine Translation is the best media in translating text? Why?	No, in my opinion machine translation it's not the best media in translating the text because in general, the translation services still provide language that is stiff and sounds strange if we read it again.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Yes, according to me machine translation have bigger advantage than disadvantages machine translation is made to make it easier for humans to learn a language, especially if you haven't mastered a language and need a fast automatic translator. Machine translation is one solution.

No.	Questions	Answer
1.	What is Machine Translation?	Automated translation text performed by computer that can translate the languages to the other languages, based on what we needed to translate.
2.	What the function of Machine Translation?	Translating a language to the other language or converting text from one language.
3.	What kind of Machine Translation do you use? Why?	It's not specific machine, I actually use Google translate. cause it more simple to use without download the app.
4.	How important Machine Translation in translating the text? Why?	It's essential. That is best for task, don't need much time for translate the content. The computer will do. The best machine translation tool lets you increase translator productivity and reduce costs.
5.	How do you use Machine Translation in translating the text?	Setting the one language that I want to translate to the other languages, after setting it, I write the content or the text that I want to translate.
6.	How often do you use Machine Translation in translating the text? Why?	Often enough. To make sure the correct arrangement of sentence
7.	What do you think about using dictionary in translating the text? Why?	I think using dictionary is pretty good, but in my opinion, if would like to using dictionary it just

		translate one or two vocabulary. But, it's not effective using dictionary to translate paragraph or long text, cause it will takes a lot of time.
8.	Does Machine Translation make you lazy to translate directly or using dictionary?Why?	Yes. It is. With use machine translation is truly practically and we don't need to thinking about arrangement of sentence or searching word by word.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	For translation class, I only use machine translation for translate one or two words that I don't know the meaning. But, for producing the text, I more confident translate directly because machine translation just translate the meaning by that word without translate to language target.
10	Do you always recheck result of Machine Translation before you submit it? Why?	Of course. I more confident translate directly, cause in translate use machine translation, i often found the translate which is quite confusing and that translation not very accurate.
11	What are advantages of using Machine Translation in Translation class?	Has rapidly become an essential tool for almost all students at all levels to assist their translation tasks
12	What are disadvantages of using Machine Translation in Translation class?	Because the content or text translating by machine or software, that is possible there was error.

		Machine translation does not provide to overcome in using vocabulary.
13	Does Machine Translation is the best media in translating text? Why?	In my opinion, no. Machine translation is not ensure 100% right translation. No matter how perfect the translator's media is, it will not be able to compete with the role of a direct translator who can produce quality translations.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	In my opinion and based on the reference that I found, I can give conclusion that machine translation have more advantages that disadvantages. With machine translation, we can translate language in short time. In addition, there is also a translation feature into various languages, and still many others advantages from machine translation.

No.	Questions	Answer
1.	What is Machine Translation?	Machine translation is a computer's software for translating text or speech from one language to another.
2.	What the function of Machine Translation?	The function is to make it easier for someone to translate or understand a language.
3.	What kind of Machine Translation do you use?Why?	Google translate. Because it's easy and simple to use.
4.	How important Machine Translation in translating the text? Why?	This is very important, because it makes it easier for students to do assignments that may be difficult to do.
5.	How do you use Machine Translation in translating the text?	First in words, then in sentences. See again whether it fits or there is no relationship between these languages.
6.	How often do you use Machine Translation in translating the text? Why?	Actually I don't use machine translation very often I use it when I'm not sure what I'm translating. Thus, it will help my doubts when I translate the text.
7.	What do you think about using dictionary in translating the text? Why?	I think the use of a dictionary is highly recommended in learning translation, because it will be very helpful for students when they do not know the meaning of some words.
8.	Does Machine Translation make you lazy to translate directly or using dictionary?	I think the use of a dictionary is highly recommended in learning translation, because it will be very

	Why?	helpful for students when they do not know the meaning of some words.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Yes, I think the use of machine translation is one way to increase my confidence when translating. Because when I can't or hesitate to translate directly, it can be done with machine translation.
10	Do you always recheck result of Machine Translation before you submit it? Why?	Of course. Because in my opinion a machine is not 100% the results will always correct, I will definitely check the results again whether it is right or not.
11	What are advantages of using Machine Translation in Translation class?	To facilitate and speed up the completion of tasks
12	What are disadvantages of using Machine Translation in Translation class?	It will make someone less thorough in their duties, because some think that if they have used a machine translation, everything is correct. Although that may not be true.
13	Does Machine Translation is the best media in translating text? Why?	I think yes. Because in this era where technology is needed in many purposes, one of which is translating. I think a machine translation is the best media in translating the text.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	I think yes. Because using a machine translation will speed up the time in translating the text, and is also very helpful when I have difficulty or

		doubt in translating text.

No.	Questions	Answer
1.	What is Machine Translation?	Every tool that purpose to translate a certain language to another language.
2.	What the function of Machine Translation?	To facilitate mankind translate their mother tongue language to target language.
3.	What kind of Machine Translation do you use?Why?	Google translate, because it's simple to use.
4.	How important Machine Translation in translating the text? Why?	A machine translation could facilitate students in translation class by providing them to translate, to check, and to ensure their translated texts.
5.	How do you use Machine Translation in translating the text?	I use machine translation in various ways as translating every text, translating one sentence, and some time translating only one word.
6.	How often do you use Machine Translation in translating the text? Why?	Very often. It helps me to translate words that I don't know.
7.	What do you think about using dictionary in translating the text? Why?	The use of dictionary is important in translating text, yet we should use it wisely, because dictionary facilitates us words, yet if we use it too often, our reading and translating abilities reduce.
8.	Does Machine Translation make you lazy to translate directly or	No, I often use it to translate the words, although I translate a

	using dictionary? Why?	sentence or paragraph, I have to re-check the translation text.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	No. I feel confident with my translation text even though I don't use machine translation
10	Do you always recheck result of Machine Translation before you submit it? Why?	Yes, I do. Machine translation is not one hundred percent accurate. They, machine translation, often translate the text word by word without considering grammatical context.
11	What are advantages of using Machine Translation in Translation class?	It could strengthen students' ability in translating various texts by utilizing machine translation only if needed.
12	What are disadvantages of using Machine Translation in Translation class?	It consumes more time to use machine translation
13	Does Machine Translation is the best media in translating text? Why?	In other side, it is the best. But another it is not the worth. The best thing about machine translation is efficient (do not take much time to translate), yet they are not too affective for translating paragraph or texts.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Yes. They are robot. They are able to expand their ability to translate more and more in the future.

Name : RKA

SRN :170102031320

No.	Questions	Answer
1.	What is Machine Translation?	Machine Translation (MT) or automated translation is a process when a computer software translates text from one language to another without human involvement.
2.	What the function of Machine Translation?	To translate the text from one language to other language
3.	What kind of Machine Translation do you use? Why?	There are four types of machine translation– Statistical Machine Translation (SMT), Rule-based Machine Translation (RBMT), Hybrid Machine Translation, and Neural Machine Translation.
4.	How important Machine Translation in translating the text? Why?	Machine translation is great for sifting through large amounts of data. A task that would not be possible for human translators. In these situations, machine translation makes it possible to quickly sift through the foreign language documents, search for relevant terms, and remember those terms for later application.
5.	How do you use Machine Translation in translating the text? Translating word, sentence or paragraph? Indonesia to English or English to	Machine translation can be used to translate large volumes of text quickly, which would be close to impossible using traditional translation methods. It can be used to

	Indonesia?	translate entire texts without any human input (raw MT), or alongside human translators i.e.: machine translation post-editing.
6.	How often do you use Machine Translation in translating the text? Why?	Yes, I often use machine translation because it's not have correlation meaning and incorrect grammar
7.	What do you think about using dictionary in translating the text? Why?	In modern translation, a large number of words have several meanings, an interpreter who perfectly knows a foreign language cannot remember them all. The memory of a person cannot hold such a huge amount of information, then the dictionaries come to the aid of an interpreter.
8.	Does Machine Translation make you lazy to translate directly or using dictionary? Why?	Yes, because To translate the text provided by the user, machine translation substitutes a word from the source language with one from the target language. Due to the lack of phrase identification and increasing intelligence, the substitution of words cannot produce reliable translation results.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Yes, because Machine translation can help in situations where speed is the most important factor. You get the machine translation almost immediately for your use. It is also a great benefit that machine translation

		can be used to easily translate texts that would otherwise not be translated at all, such as email messages
10	Do you always recheck result of Machine Translation before you submit it? Why?	Yes, because sometimes a translation error is a grammatical or spelling mistake or an incorrect word choice given the original words' meaning or the document's target audience. A preference choice is a word that the client prefers over others and we have to recheck.
11	What are advantages of using Machine Translation in Translation class?	However, the benefits of using machine translation are undeniable: high speed of work, the ability to quickly get acquainted with the material (if necessary), confidentiality, versatility, ability to perform online translation, there is no need to manually type the translated text for a long time.
12	What are disadvantages of using Machine Translation in Translation class?	One major disadvantage of Machine Translation is its inability to pick up on cultural nuances, contextual content clues, and local slang. This results in content that can feel a bit robotic, choppy, and not culturally aligned.

13	Does Machine Translation is the best media in translating text? Why?	Yes, because Machine translation provides the greatest benefits when translating unambiguous texts, such as reports, user manuals and instructions. The less interpretation and style requirements in a text, the better a machine can handle it. This makes editing faster and more efficient
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	Yes, machine translation is have bigger advantage because Machines can generate thousands of words each minute. However, one should note that the output is not in its final useable form right away, but in certain scenarios, it can be quite useful. Even when adding a post-editing step, translation by a machine takes a fraction of the time that human translation takes.

No.	Questions	Answer
1.	What is Machine Translation?	Machine translation is a tool for exchanging a language into another language.
2.	What the function of Machine Translation?	The function is for helping people translating about anything from one language into another language depends on what languages they want to translate.
3.	What kind of Machine Translation do you use? Why?	I am personally often using Google Translation to translate long sentences and using online/offline dictionary to search some vocabulary that I don't know what the meaning is.
4.	How important Machine Translation in translating the text? Why?	I think it is not really important because based on my experience in translation class we were using Oxford Dictionary to find the meaning of a word. We were given the tips on how to translate sentence, also machine dictionary like Google translation cannot be trusted 100% because there might some grammatical errors. In additional, we cannot use machine translation all the time because we have learnt how to translate sentences or paragraphs step

		by step
5.	How do you use Machine Translation in translating the text?	I just jot down some sentences that I want to translate and select which languages I want to use.
6.	How often do you use Machine Translation in translating the text? Why?	Not really, when I want translate some texts and I find some words I don't know the meaning I just search in dictionary the meaning and I confident enough with my translation.
7.	What do you think about using dictionary in translating the text? Why?	I think it is good, it is one of the ways we can increase our vocabulary. Translating text using dictionary makes it can be a measurement to check our language ability, but of course some of us might take longest time to translate some texts.
8.	Does Machine Translation make you lazy to translate directly or using dictionary? Why?	Yes, it does happen multiple times because I want to know the meaning as fast as possible so I just open Google translation to help me.
9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Based on my experience, we should have not using machine translation in translation class. We have to be confident with our own skill, and I am confident enough with my skill in translating the text.
10	Do you always recheck result of Machine Translation before you submit it?Why?	I didn't use machine translation, but I always recheck my work before I submit it.

11	What are advantages of using Machine Translation in Translation class?	We can translate the text way easier and faster than when we don't use it, it doesn't take long time for us to understand the meaning in our mother tongue or otherwise.
12	What are disadvantages of using Machine Translation in Translation class?	It cannot be trusted 100% because the grammar structure is not always right, we are becoming lazy to translate something and kind of relying on it all the time, it can decrease our writing skill and make us not confident enough to show our English ability.
13	Does Machine Translation is the best media in translating text? Why?	I personally think it's not the best tool because it doesn't guarantee if the grammatical structure is always right, also we can't rely on it all the time.
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	For some people the advantages might have bigger impact than the disadvantages because it can help people to translate some sentences into another language that they can't speak. But, I personally think it has bigger advantages than disadvantages.

No.	Questions	Answer
1.	What is Machine Translation?	A tool to translate a foreign word.
2.	What the function of Machine Translation?	The tool used to translate foreign vocabulary from one language to another.
3.	What kind of Machine Translation do you use? Why?	Google Translate. It is because Google translate simple and easy to use every time.
4.	How important Machine Translation in translating the text? Why?	Very important, because using a translation tool it helps me more to translate vocabulary that I don't know the meaning.
5.	How do you use Machine Translation in translating the text?	Usually I use Google translate with scans / photos and can also be typed manually.
6.	How often do you use Machine Translation in translating the text? Why?	Very often, especially when I do my task that is in English and also in my thesis.
7.	What do you think about using dictionary in translating the text? Why?	The dictionary is quite good for vocabulary reference, because it contains many meanings in one word and which may be matched with the sentences made.
8.	Does Machine Translation make you lazy to translate directly or using dictionary? Why?	Maybe yes makes me lazy because my vocabulary skill it doesn't good enough and also Google translate can make sure the meaning of word.

9.	Do you more confident use Machine Translation in producing a text than translate directly in Translation class? Why?	Yes, I more confident when I use machine translation but depends what machine translation that I used. I usually use 2 machine translation, Google translate and other one that able to translate accurate.
10	Do you always recheck result of Machine Translation before you submit it?Why?	Yes, I always re-check the words that I translate from the application I used so decrease the miss.
11	What are advantages of using Machine Translation in Translation class?	We can translate vocabulary and sentences practically and quickly.
12	What are disadvantages of using Machine Translation in Translation class.	Sometimes only provide limited vocabulary. The meaning of limited does not contain synonyms.
13	Does Machine Translation is the best media in translating text?Why?	I think the translation media is quite a practical alternative for translating, not only easy but also the translation is in sync with the text. (capable of customizing the topic)
14	Does Machine Translation is have bigger advantages than disadvantages? Why?	I think the advantage of using machine translation is that it saves time compared to dictionaries. The drawback we may get un-translated words, nor is machine translation 100% accurate in translating text.

KEPUTUSAN DEKAN FAKULTAS TARBIYAH DAN KEGURUAN
UIN ANTASARI BANJARMASIN
NOMOR 227 TAHUN 2020
TENTANG
PENETAPAN DOSEN PEMBIMBING SKRIPSI SEMESTER GENAP
TAHUN AKADEMIK 2019/2020

DEKAN FAKULTAS TARBIYAH DAN KEGURUAN UIN ANTASARI,

- Menimbang : a. bahwa untuk kelancaran mahasiswa Fakultas Tarbiyah dan Keguruan UIN Antasari Banjarmasin membuat skripsi, maka perlu menetapkan Dosen-Dosen Fakultas Tarbiyah dan Keguruan untuk menjadi pembimbing;
- b. bahwa nama-nama sebagaimana tersebut dalam Surat Keputusan ini dipandang mampu dan cakap untuk ditetapkan sebagai Dosen Pembimbing Skripsi dimaksud.
- Mengingat : 1. Undang-Undang RI No. 20 Tahun 2003 tentang Sistem Pendidikan Nasional;
2. Peraturan Presiden RI Nomor 36 Tahun 2017 tanggal 3 April 2017 tentang Universitas Islam Negeri Antasari Banjarmasin;
3. Peraturan Pemerintah No. 60 Tahun 1999 tentang Pendidikan Tinggi;
4. Surat Keputusan Menteri Agama No. 30 Tahun 2017 tentang Organisasi dan Tata Kerja UIN Antasari;
5. Surat Keputusan Menteri Agama No. 36 Tahun 2017 tentang Statuta UIN Antasari Banjarmasin;
6. Keputusan Rektor IAIN No. 217A Tahun 2012 tentang Perubahan atas Keputusan Rektor No. 72 Tahun 2007 tentang Pedoman Penulisan Skripsi Program Strata Satu (S-1) IAIN Antasari Banjarmasin.
- Memperhatikan : Usul Ketua Jurusan TBI Tanggal 25 September 2020
- MEMUTUSKAN:
- Menetapkan : KEPUTUSAN DEKAN FAKULTAS TARBIYAH DAN KEGURUAN UIN ANTASARI TENTANG PENETAPAN DOSEN PEMBIMBING SKRIPSI MAHASISWA SEMESTER GENAP TAHUN AKADEMIK 2019/2020
- Pertama : Menunjuk dan menugaskan kepada:
1. Nama : Dra. Andi Irlina, M.Hum
NIP/NUP : 196901122003122004
Pangkat/Golongan : Penata/III/c
Jabatan Akademik : Lektor
Sebagai Pembimbing Bidang Konten dan Metodologi
2. Nama : Yoke Andini, SS, M.Pd
NIP/NUP : 201701038
Pangkat/Golongan : Penata Muda Tingkat I/III/b
Jabatan Akademik : Assisten Ahli
Sebagai Pembimbing Bidang Bahasa dan Teknik Penulisan
- Untuk membimbing mahasiswa penyusun skripsi:
- Nama : Dina Sofia
NIM : 170102030157
Jurusan/Prodi : TBI
Judul Skripsi : Students' Perception Towards The Use Of Machine Translation In Translation Class
- Kedua : Biaya akibat dikeluarkannya keputusan ini dibebankan kepada DIPA UIN Antasari Banjarmasin.
- Ketiga : Keputusan ini berlaku sejak tanggal ditetapkan, dengan ketentuan bahwa apabila terdapat kekeliruan dalam penetapan ini, maka akan diadakan perbaikan dan perubahan sebagaimana mestinya.

Ditetapkan di Banjarmasin
pada tanggal 25 September 2020
DEKAN,

Prof. Dr. H. Juairiah, M.Pd.
NIP. 196001061986032004

- Tembusan:
1. Rektor UIN Antasari Banjarmasin;
 2. Ketua Jurusan;
 3. Dosen Pembimbing;
 4. Arsip.
