

CHAPTER V

CLOSURE

A. Conclusion

Based on the data from the research that has been carried out, it can be concluded that the implementation of the use of Google Classroom is very helpful in the online learning process during the current Covid-19 pandemic, while using the Google Classroom application the teacher can monitor student learning activities, such as absenteeism, material explanations. and delivery of assigned tasks. As for the plans prepared by the teacher in carrying out these online learning activities, of course the teacher prepares the syllabus, lesson plans, LKPD, to the tasks that will be given later. Even the teacher also prepared a learning video. For media used by teachers, teachers usually use learning media in the form of videos, pictures and PPT.

The implementation of the use of Google Classroom is used for every teaching and learning activity, namely every Monday-Friday. The things that must be prepared by the teacher in implementing the use of Google Classroom are that online learning has been going well. The strategy used by the teacher is to convey the material in bullet points so that students do not get bored. In online learning using Google Classroom, it has been seen that students can already use Google Classroom as an online learning medium during the Covid-19 pandemic and also from the daily grades they do, the KKM has been achieved.

Furthermore, in evaluating the use of Google Classroom, the teacher evaluates the assessment as usual, namely cognitive, affective, and psychomotor assessments that are observed by the teacher online. Such as cognitive assessment observed from student learning outcomes. Assessment of student attitudes can be observed in online learning, which can be seen in online learning that students' attitudes are good. Psychomotor assessment is observed through practical activities.

B. Suggestions

During the research conducted, the researchers obtained several findings that can be used as input for improvements in the implementation of the use of Google Classroom in online learning during the Covid-19 pandemic.
