

CHAPTER V

CLOSURE

The researcher would like to provide conclusions and suggestions in this chapter. The conclusion supports the findings and discussion in Chapter IV, which answers the research question. These suggestions emphasize the significance of the study given to the parties specified in Chapter I.

A. Conclusion

The researcher discovered four steps of the PQRST Method, which is specifically applied by English teachers at MTsN 4 Barito Kuala. There were also some difficulties faced while using the PQRST method in teaching reading.

1. Based on the data of observation and interview on the teacher's Implementation of PQRST Method for teaching reading in class IX A. The teacher has applied almost all of the procedure based on the theory. There were four steps consisted of five steps of theory from Wormely (2010) used in the teaching process by the teacher. The steps were preview, question, read, test. There was only summarize step that skipped because of limitation of the time.
2. Based on this research, it was found that there were some problems faced when used the PQRST method for example; students' ability in learning English was still under average, they were lack of vocabulary, students

have low motivated, this method took too much time, and lack of teaching material and facilities applied for this method.

B. Suggestions

Based on the results of the study, the researcher's suggestions are intended for English students at UIN Antasari Banjarmasin, English teachers, and future researchers who would like to conduct similar research. The researcher hopes that this research can be used to implement all aspect of English teaching.

1. English Students at UIN Antasari Banjarmasin

This study can educate teacher students, particularly those chosen as research informants for this study, particularly those who employ the PQRST Method for teaching reading or research title.

2. English Teacher

The findings of this study can be used to increase and improve the quality of teaching reading comprehension by using the PQRST Method, which is efficient, engaging, and motivating in improving students' reading comprehension ability.

3. Future Researchers

This research is focused on implementation of PQRST Method for students reading comprehension. It is recommended that alternative activities be developed and tested so that the learning activities connected to the PQRST Method are more varied.
