Your paper entitled *Guidance Patterns for Developing the Multicultural Character of Santri in Salafiyah Islamic Boarding Schools, South Kalimantan* is a good piece of research, but it lacks a consistent approach, which can be easily seen in the text.

First, if we believe in what you write as objective of this study: "how to actually develop the multicultural character of students at the Salafiyah Islamic Boarding School," it means that you aim at finding the "patterns of guidance &

supporting factors" that can help to develop the multicultural character of students. If this is so, your focus should be only on teaching patterns, methodology, curriculum, pedagogical principles, and teachers teaching in Islamic boarding schools. A combination of all these forces can only contribute to provide character education. Please check and remove any other element like the role of religious leaders, etc.

There are several words in Indonesian language/ spellings e.g. santri, sinior, ustadz, kyai, salafi, Daftar Rujukan, etc. that must be removed or English equivalents given. The journal also follows the APA style in which footnotes/ foot references are not permitted. Please remove all footnotes and put them in the end alphabetically in APA style. The in-text references are also to be shown in parentheses e.g., (Zuhriy, 2011). These are long sentences, notes in the Indonesian language, (See FN no 5, 6, 12, etc) which this journal cannot publish. Likewise, please remove or translate all the end references which are in the Indonesian language. Last, but not the least, there are serious language errors, and fragmented sentences. Please take the services of a language expert to remove these errors before you resubmit.

This is a good research study. The author has made use of all components of research; however, there are a few observations, that might be addressed to before taking the decision to publish this paper.

First and foremost, your introduction does talk about the background of the study, but it lacks the rationale, or why you wanted to do this research. You only mention Islamic boarding schools , multicultural character, multiculturalism, etc. leaving for the readers to guess what the objective of this research is. It is suggested to bring coherence in the introduction, explaining the connection between all the ideas that you have included. Secondly, you need to add a few theoretical studies and definitions of Islamic boarding schools, multiculturalism, etc. in the Indonesian context to support the objective of the study. You also need to highlight the problems statements/ research questions. There is no literature review. Please add a section comprising latest studies to support your argument.

Checklist to make the changes in your paper

1. Abstract: divide it into Purpose, Methodology, Findings and Implications for Research and Practice, adding recommendations, limitations, in the end.
2. Introduction: should contain a brief background information about the topic Please check if you can add a statement about rationale, purpose and research objectives along with the eligibility criteria. You may also state that there exists a research/ literature gap. You may also create a separate literature review section.
3. Methodology: The journal format requires the method section to contain Research design, meta- analysis method or procedure, and analysis. Please present your data accordingly.
4. Results and Discussion: These are two separate sections.. Results section contains the outcomes which may be represented in tabular form. Discussion section must contain summary of main results and brief references to previous researches.
5. Conclusion, Recommendations and Implications. It must include a brief conclusion of the research completed, limitations, recommendations for future research and implications for research and practice.

Lastly, the paper is full of language, grammar and syntax errors. Several sentences are short, fragmented and give incomplete meaning, not fit for a good research paper Please have it checked by a language expert before you resubmit.
