

## APPENDICES

### Appendix 1

#### Translation of Qur'an Verse

No.	Page	Surah/Verse	Translation	Terjemahan
1.	5	al-An'am(6): 165	He it is Who hath placed you as viceroys of the earth and hath exalted some of you in rank above others, that He may try you by (the test of) that which He hath given you. Lo! Thy Lord is swift in prosecution, and Lo! He verily is Forgiving, Merciful.	Dan Dialah yang menjadikan kamu penguasa-penguasa di bumi dan Dia meninggikan sebahagian kamu atas sebahagian (yang lain) beberapa derajat, untuk mengujimu tentang apa yang diberikan-Nya kepadamu. Sesungguhnya Tuhanmu amat cepat siksaan-Nya dan sesungguhnya Dia Maha Pengampun lagi Maha Penyayang.

## Appendix IV

### Finding of Male Communication Style

Male

Focus on Information (MFi)

MFi1	“Yeah, of course that is very necessary because we need someone we can admire and inspire us as well as a mood booster when we are down.”
MFi2	“The hope for my idols is that they will always be healthy. Be happy and develop in terms of career and life. Of course I really want to meet someday. Either in person or just being greeted through social media.”
MFi3	“ The English Education Department at UIN Antasari Banjarmasin is actually better than I thought, many people say that learning here is unsatisfactory but when I entered this department it turned out that it's not as bad as they say, it's deeper in explanation, more detailed and more suitable for us as a teacher or other profession.”
MFi4	“Maybe I prefer to read a lot of lecture material before class starts so that during class I have an idea of what will be discussed today.”
MFi5	“I usually eat fried rice at night, but not every day when I feel like it. Likewise with my indomie. So when I just want, but can at night or in the morning.”
MFi6	“Of course it is very necessary, because that is what makes us grow. Therefore it is very necessary. In all aspect in my life.”

Male

Report style of Speaking (MRs)

- 
- “As I mentioned earlier, I prefer to buy pizza at "pizza pian" because I think the pizza is there. The bread is softer and not hard. And the price is pocket-friendly, so I can buy it once a month and compared to other pizzas.
- MRs1 Delivery there is very fast and makes customers very satisfied. I have shopped at other pizza but the delivery was really very long and in the end the pizza that was delivered turned out to be hard and that was very disappointing for me personally.”
- 
- “My favorite food is fried rice. Because in my opinion fried rice is the most delicious food and very easy to get so it can be a solution when we are hungry at night. The second is indomie. Indomie in my opinion is very
- MRs2 delicious and tastes very stable compared to other brands. And I think only Indomie can maintain its taste and even improve the taste even more delicious. For example, the others can taste fickle and inconsistent. But it's different from indomie which is always stable and fits in the heart.”
- 
- “The English Education Department at UIN Antasari Banjarmasin is actually better than I thought, many people say that learning here is
- MRs3 unsatisfactory but when I entered this department it turned out that it's not as bad as they say, it's deeper in explanation, more detailed and more suitable for us as a teacher or other profession.”
-

Male

Goal Driven (MGd)

- 
- MGd1 “I usually eat pizza once a year. Maybe even more. Because apart from the price being quite expensive, I usually eat this food only when I'm with my extended family. Because the portion is really big and I'm used to eating it together.”
- 
- MGd2 “What is certain is that I can improve myself, both in terms of skills and knowledge. What really stands out now is in terms of kicking skills, in the past it was very difficult for me to talk to other people but now it's easier for me to get my point across to other people and have the courage to appear in front of many people”
- 
- MGd3 “The English Education Department at UIN Antasari Banjarmasin is actually better than I thought, many people say that learning here is unsatisfactory but when I entered this department it turned out that it's not as bad as they say, it's deeper in explanation, more detailed and more suitable for us as a teacher or other profession.”
- 

Male

Succint Language (MSI)

- 
- MSI1 “Yeah, of course that is very necessary because we need someone we can admire and inspire us as well as a mood booster when we are down.”
- 
- MSI2 “Yeah, I think that's really necessary because we need someone who can inspire us and see their achievements so that we can follow in their footsteps. In addition, idols, in my opinion, are mood boosters when we are feeling down or feeling down. They can be our mood booster to get back into the spirit of living our dreams and achieving them.”
-

## Appendix V

### Finding of Female Communication Style

Female

Focus on Relationship (FFr)

FFr1	<hr/> <p>“First because I really liked English since I was small, then my late father also said that my English skills were also very good so he hoped I could continue my English education to a higher level. So my father used to really like English and was interested, but he didn't know how to channel it and study it more deeply, so he didn't study English seriously or in formal education.”</p> <hr/>
FFr2	<p>“Actually I am a gap year, I actually chose a booth in Jakarta and sacrificed a year to prepare myself to take the booth exam. So during that gap year I studied in an English village and maybe from there I started to like English even though I had been interested since high school, but studying in an English village made me even more curious and interested in English education. But because someone offered me to enter STAN and to enter there it required a high fee, so I focused more on myself and decided not to study at any campus. And it turned out that when registration was supposed to have been opened, STAN registration was not held due to the pandemic. Of course I was very sad and decided to study at UIN Antasari Banjarmasin because the campus is also in the city where I live and I also chose to major in English education as I liked before.”</p> <hr/>
FFr3	<p>“Yes of course. I have to read more is the solution because I am a person who if I don't understand something then I will continue to try to understand it in any way. Because later if I don't understand it will come back to me too dizzy myself when the class is in progress so I try hard</p> <hr/>

---

to make myself understand. For readign, I prefer to read a lot of easy articles first with light explanations so that I can easily understand them and then when I get used to them I will look for articles with more complicated discussions to understand”

---

Female

Rapport talk of Speaking (FRs)

---

FRs1 “Yes, I definitely spend it on the food I like, whether it's satay or gado gado. Because that's how much I like it to the point that if I am fed 3 times, I can eat satay one day because I like it so much, so if I have extra money, I will definitely give it to satay and if I want to give myself a self-reward, I will buy it. satay or gado gado for myself.”

---

FRs2 “Actually I am a gap year, I actually chose a booth in Jakarta and sacrificed a year to prepare myself to take the booth exam. So during that gap year I studied in an English village and maybe from there I started to like English even though I had been interested since high school, but studying in an English village made me even more curious and interested in English education. But because someone offered me to enter STAN and to enter there it required a high fee, so I focused more on myself and decided not to study at any campus. And it turned out that when registration was supposed to have been opened, STAN registration was not held due to the pandemic. Of course I was very sad and decided to study at UIN Antasari Banjarmasin because the campus is also in the city where I live and I also chose to major in English education as I liked before.”

---

FRs3 “Yes of course. I have to read more is the solution because I am a person who if I don't understand something then I will continue to try to understand it in any way. Because later if I don't understand it will come back to me too dizzy myself when the class is in progress so I try hard

---

	to make myself understand. For reading, I prefer to read a lot of easy articles first with light explanations so that I can easily understand them and then when I get used to them I will look for articles with more complicated discussions to understand”
FRs4	“Personally, it's better to buy it, for example, far from mom, but when I am at home, it's actually made by mom. It's better than outside because we can request what we want. What's the level of doneness. Do you want it to be very cooked or not because I honestly prefer medium to overcook because there are satay which are usually very cooked so they shrink and turn black a lot. So I don't like it.”
FRs5	“There was one of my UPB teachers who became my idol because he had very good pronunciation when he taught. I really like listening to him speak English because his pronunciation is clear and very easy to understand. Even though in UPB learning at that time he used full English but I liked it and it was easy for me to understand what he was saying. So I am very happy to hear him and feel trained in English, especially in the field of listening by listening to him speak full English every lesson. And also because if for example we were told to also speak English. Whatever we said, even if it was wrong. But at least we had the courage to try and it would be appreciated by him no matter how small his mistake, he would definitely listen first and then correct it, never directly blaming it. I think I really admire him. And make him different from other lecturers or teachers.”
Female	
Process Oriented (FPo)	
FPo1	“Actually I am a gap year, I actually chose a booth in Jakarta and sacrificed a year to prepare myself to take the booth exam. So during that gap year I studied in an English village and maybe from there I started to like English even though I had been interested since high school, but

---

studying in an English village made me even more curious and interested in English education. But because someone offered me to enter STAN and to enter there it required a high fee, so I focused more on myself and decided not to study at any campus. And it turned out that when registration was supposed to have been opened, STAN registration was not held due to the pandemic. Of course I was very sad and decided to study at UIN Antasari Banjarmasin because the campus is also in the city where I live and I also chose to major in English education as I liked before.”

---

FPo2 “There was one of my UPB teachers who became my idol because he had very good pronunciation when he taught. I really like listening to him speak English because his pronunciation is clear and very easy to understand. Even though in UPB learning at that time he used full English but I liked it and it was easy for me to understand what he was saying. So I am very happy to hear him and feel trained in English, especially in the field of listening by listening to him speak full English every lesson. And also because if for example we were told to also speak English. Whatever we said, even if it was wrong. But at least we had the courage to try and it would be appreciated by him no matter how small his mistake, he would definitely listen first and then correct it, never directly blaming it. I think I really admire him. And make him different from other lecturers or teachers.”

---

FPo3 “Because English is not our language, the main obstacle is vocabulary and meaning. People will not be eager to learn something if they don't understand what is being studied or are usually in full English in learning. By having a lot of vocabulary it will greatly facilitate us in learning and understanding English. For me personally, grammar is not too much of a headache because my teacher once said that the important thing about English is self-confidence, the important thing is to have the courage to try to speak even though the grammar is messy and there are lots of

---

---

mistakes, but at least our speaking skills can be trained as long as what we say can still be done. understood by our interlocutors, grammar is not too big a thing to be concerned about, although I will still learn to improve my grammar.”

---

FPo4 “In my opinion, having an idol is fifty fifty, because I personally look more to myself. I'm pretend to see myself as a motivation for myself. But on the one hand if it's really stuck and I can't see. What else is there in me, I need someone else for me to set as a benchmark and. Give me encouragement through the achievements he has. Here. That person is one of the Indonesian actresses who is also extraordinarily smart is Maudy Ayunda. I like Maudy Ayunda because she is a very independent, educated, multi-talented person. As we can see he was able to continue his education even though he is an artist who we certainly know has played a lot and must be busy in the film world but he can still manage his time to continue his education, besides that he also has a very good manner. She is polite and low profile. And very suitable to be a public figure.”

---

Female

Storytelling style of speech (FSs)

---

FSs1 “Actually I am a gap year, I actually chose a STAN in Jakarta and sacrificed a year to prepare myself to take the booth exam. So during that gap year I studied in an English village and maybe from there I started to like English even though I had been interested since high school, but studying in an English village made me even more curious and interested in English education. But because someone offered me to enter STAN and to enter there it required a high fee, so I focused more on myself and decided not to study at any campus. And it turned out that when registration was supposed to have been opened, STAN registration was not held due to the pandemic. Of course I was very sad and decided to

---

	study at UIN Antasari Banjarmasin because the campus is also in the city where I live and I also chose to major in English education as I liked before.”
FSs2	“Personally, it's better to buy it, for example, far from mom, but when you're at home, it's actually made by mom. It's better than outside because we can request what we want. What's the level of doneness. Do you want it to be very cooked or not because I honestly prefer medium to overcook because there are satay which are usually very cooked so they shrink and turn black a lot. So I don't like it.
FSs3	“Because English is not our language, the main obstacle is vocabulary and meaning. People will not be eager to learn something if they don't understand what is being studied or are usually in full English in learning. By having a lot of vocabulary it will greatly facilitate us in learning and understanding English. For me personally, grammar is not too much of a headache because my teacher once said that the important thing about English is self-confidence, the important thing is to have the courage to try to speak even though the grammar is messy and there are lots of mistakes, but at least our speaking skills can be trained as long as what we say can still be done. understood by our interlocutors, grammar is not too big a thing to be concerned about, although I will still learn to improve my grammar.”
FSs4	“What is certain is always the enthusiasm to learn and try, because the more we learn the more we know. I prefer to watch YouTube for learning English with cartoon content that makes me excited to understand and learn English. And also if I'm walking I usually also describe something using English so that my pronunciation and vocabulary will be very well trained as well as other aspects such as confidence and grammar I will also be trained from my habits.”

## Appendix VI

### Finding Differences of Male and Female Communication Style in Speaking

NO.	Communication Style	Male	Female
1.	Emphasize	<ul style="list-style-type: none"> <li>• “many people say that <b>learning</b>”</li> <li>• “I’m a bit <b>confused</b>”</li> <li>• “several courses give <b>assignments</b>”</li> <li>• “read a lot of lecture <b>material</b>”</li> </ul>	
2.	Fillers and discourse particles	<ul style="list-style-type: none"> <li>• “mmm” 19x</li> <li>• “aaa” 10x</li> <li>• “like” 4x</li> </ul>	<ul style="list-style-type: none"> <li>• “mmm” 10x</li> <li>• “aaa” 7x</li> <li>• “like” 3x</li> </ul>

## Appendix VII

### Script of Interview

Male Student

Student A

---

Interviewer	:	“Why did you choose the English Education Department as your major?”
-------------	---	--

---

Male Student	:	“I really like English from childhood, maybe from kindergarten. From a young age I was taught a dictionary because my father worked in a mining company which required my father to master some mining vocabulary in English, so I used to borrow and take my father's dictionaries and books. Indeed, from myself I wanted to be able to enter the English department because I really liked it too, but actually <i>mmm</i> I had also planned to enter the Japanese language department at another campus, but after thinking about it again I hesitated and was more determined in the English department.”
--------------	---	---

---

Interviewer	:	“How do you describe the English Education Department at UIN Antasari Banjarmasin?”
-------------	---	---

---

Male Student	:	“It's been very good and the lessons given are also appropriate in my opinion, but maybe there are a number of things that need to be improved such as <i>mmm</i> the existing facilities because to be honest several times when we want to use the projector there are often problems and it hinders our lecture process. <i>Aaa</i> so hopefully it can be paid more attention to in the future for mutual comfort in the teaching and learning process.
--------------	---	---

---

Interviewer	:	“What are the tiring things or obstacles to studying in the English Education Departement?”
-------------	---	---

---

Male Student	:	“Maybe from me, there are <i>mmm</i> some explanations from the lecturer that are difficult for me to understand, maybe it's the way he conveys that is difficult for me to understand, then also in terms of facilities sometimes when there is a presentation assignment and it requires an LCD, but the LCD is actually damaged so our learning process slightly disturbed.”
--------------	---	---

---

Interviewer	:	“Do you have any tips or something to improve yourself in English ?”
Male Student	:	“What's clear is that just live it, because something difficult will surely pass, the most important thing is we can't give up and stop. Sometimes there are tasks that when imagined the task looks very difficult but when the D-day approaches and we do it, it turns out to be very easy and we are able to do it in one night without any significant difficulties”
Interviewer	:	“What are your wish in the future by studying in the English Education Department at UIN Antasari Banjarmasin?”
Male Student	:	“What is certain is that you can improve yourself, both in terms of skills and knowledge. What really stands out now is in terms of kicking skills, in the past it was very difficult for me to talk to other people but now it's easier for me to get my point across to other people and have the courage to appear in front of many people.”
Interviewer	:	“What are your wish in the future by studying in the English Education Department at UIN Antasari Banjarmasin?”
Male Student	:	“What is certain is that you can improve yourself, both in terms of skills and knowledge. What really stands out now is in terms of kicking skills, in the past it was very difficult for me to talk to other people but now it's easier for me to get my point across to other people and have the courage to appear in front of many people.”
Interviewer	:	“In your opinion, is having an idol necessary? Why?”
Male Student	:	“Yeah, of course that is very necessary because we need someone we can admire and inspire us as well as a mood booster when we are down.

---

Interviewer	:	“If you think it's necessary, who do you idolize? Why?”
-------------	---	---

---

Male Student	:	<i>mmm</i> Actually I have 3 people that I idolize. The first is habib jafar because he is very easy to convey something. It's easy to understand and the language is closer to us young people. The next one is an artist named <i>aaa</i> Indra Ade. I really like his works because they have a good meaning and have a unique shape. He draws things in a very unique way. The theme of his drawings is more anime but not too anime because there are still elements of boxes like robots. So that's what makes his work different from manga manga in general. Then finally, there is a YouTuber named Evelyn. <i>mmm</i> She is a girl who is a content creator on YouTube, <i>like</i> where the content is very very interesting where she interacts with her friends on the internet using avatar media or not her real face or character or personality. the original. So he uses an avatar as a visual display and <i>aaa</i> is filled with the original voice and there discusses various kinds of talks that can make the audience comfortable when joining the content.”
--------------	---	--

---

Interviewer	:	“How do you usually see your idol? Is it by watching the live streaming or something else?”
-------------	---	---

---

Male Student	:	“I often find my idol, evelyn by watching his YouTube channel then looking on Facebook and <i>aaa</i> on tiktok. He usually holds a meet and greet but it is held by his fan club. And he is there in the form of an avatar on a laptop or on a screen, but with his original voice directly and can interact directly through his avatar and his original voice. As for West Java, I usually watch his lectures on the YouTube channel. And I've never met in person, but I'd like to someday if I have the opportunity. As for there he uploads a lot of his works and I really like to see chefs and some of his works just to meet in person, of course I really want to be able to learn directly with him someday.”
--------------	---	---

---

Interviewer	:	“How do you usually see your idol? Is it by watching the live streaming or something else?”
-------------	---	---

---

Male Student	:	I often find my idol, evelyn by watching his YouTube channel then looking on Facebook and on tiktok. He usually holds a meet and greet but it is held by his fan club. And he is there in the form of an avatar on a laptop or on a screen, but with his original voice directly and can interact directly through his avatar and his <i>aaa</i> original voice. As for West Java, I usually watch his lectures on the YouTube channel. And I've never met in person, but I'd like to someday if I have the opportunity. As for. there he uploads a lot of his works and I really like to see chefs and some of his works just to meet in person, of course I really want to be able to learn directly with him someday."
Interviewer	:	"Do you feel happy when you see or meet your idol? Can you describe the feeling?"
Male Student	:	"It must be very happy, especially Habib Jafar, to be able to synchronize between religion and reason, which is a problem that <i>mmm</i> very often occurs and is being questioned at the present time. But he can answer it. Only language that is light and easy to understand. As for the senses, I prefer to see aspects of her work where her work is very unique and different from the others. When I see her work, I feel it. the development experienced by an evelin and there and I feel inspired from what was initially unable to do anything to become a great person and be able to speak in front of many people."
Interviewer	:	"What are your hopes for the person you idolize in the future?"
Male Student	:	The hope for my idols is that they will always be <i>mmm</i> healthy. Be happy and. Develop in terms of career and life. Of course I really want to meet someday. Either in person or just being greeted through social media."
Interviewer	:	"What are your favorite foods? Why?"

Male Student	:	“I like chicken. Whatever the type of chicken except chicken that is cooked by boiling it like chicken, cooking, soy sauce or soup. Anyway everything is boiled. I don't know why the chicken tastes different, the skin looks like it's chewy. And I don't like that. I also like meatballs because in my opinion the combination is very good between noodles and vermicelli. And the meatballs are very tasty. Especially eaten when it's hot again. It's very extraordinary.”
Interviewer	:	“When do you usually eat your favorite food?”
Male Student	:	“As for meatballs, <i>mmm</i> I often eat them at night because they just suit me. With a cold atmosphere, eating warm meatballs feels just right. As for the conditional chicken anyway. Anytime it can be eaten and any time I want it.”
Interviewer	:	“In your opinion, which one is more worth it, between buying and making the food you like? Why is that?”
Male Student	:	“For example, <i>mmm</i> for meatballs, maybe I prefer to buy outside. As for the chicken, I prefer the chicken made by my mother, because the chicken made by my mother, for some reason, the seasoning tastes different and the texture is different compared to chickens out there. outside.”
Interviewer	:	“Among the many sellers selling your favorite food, where is your favorite place? Why is that?”
Male Student	:	“ <i>hmm</i> usually, when I'm in college or living in a boarding house far from my mother, she can't make chicken for me. I usually buy it at “Warung Bule”. And for meatball I usually buy it when I was in my hometown, it was in front of my house, the name of the warung is Warung Ina there, the meatballs are really delicious and the broth is very tasty and just right. The combination of pentol sauce and other things doesn't fit too much. And it just fits.”
Interviewer	:	“If you had extra money, would you always buy your favorite food? Why?”

Male Student	:	“I don't always buy food that I like, <i>mmm</i> because in my opinion, even though I really like the food, if I buy it often, I will get bored, so usually if I have extra money, I usually go for entertainment, whether it's buying movie tickets. cinema or other is not always my favorite food to me.”
Student B		
Interviewer	:	“Why did you choose the English Education Department as your major?”
Male Student	:	“I chose this major because in general, when I was at school, my grades in English were always the highest compared to other subjects. And I have an environment that refers more to English, like I spend a lot of my time on the internet and it requires a lot of understanding of English and I often watch English videos on YouTube. And I think that makes me sure that the English Education Department is very suitable as my major because that <i>aaa</i> way it will make it easier for me to understand and access my learning activities. And also I see that the benefits of majoring in English are many in the field of work, there are lots of jobs that require English language skills, and <i>aaa</i> I think this also supports me in achieving my goal of becoming an English teacher.”
Interviewer	:	“How do you describe the English Education Department at UIN Antasari Banjarmasin?”
Male Student	:	The English Education Department at UIN Antasari Banjarmasin is actually better than I thought, many people say that learning here is unsatisfactory but when I entered this department it turned out that it's not as bad as they say, it's deeper in explanation, more detailed and more suitable for us as a teacher or other profession.”
Interviewer	:	“What are the tiring things or obstacles to studying in the English Education Department?”
Male Student	:	For me, the obstacle is that several courses give assignments at the same time and it is a large project that is given simultaneously, so I mean we will be overwhelmed to work on it simultaneously. Then also what I'm a bit confused about is the difference between American rules in grammar and English in grammar.

Interviewer	:	“Do you have any tips or something to improve yourself in English ?”
Male Student	:	“Maybe I prefer to read a lot of lecture material before class starts so that during class I have an idea of what will be discussed today.”
Interviewer	:	“What are your wish in the future by studying in the English Education Department at UIN Antasari Banjarmasin?”
Male Student	:	“Get a job, become a teacher. Another hope might be to become a freelance translator because many aspects will be understood and can also help other people to translate sentences from one language to another.”
Interviewer	:	“In your opinion, is having an idol necessary? Why?”
Male Student	:	“Aha, I think that's really necessary because we need someone who can inspire us and see their achievements so that we can follow in their footsteps. In addition, idols, <i>mmm</i> in my opinion, are mood boosters when we are feeling down or feeling down. They can be our mood booster to get back into the spirit of living our dreams and achieving them..”
Interviewer	:	“If you think it's necessary, who do you idolize? Why?”
Male Student	:	“Yes, I think that's really necessary because we need someone who can inspire us and see their <i>aaa</i> achievements so that we can follow in their footsteps. In addition, idols, in my opinion, are mood boosters when we are feeling down or feeling down. They can be our mood booster to get back into the spirit of living our dreams and achieving them.”
Interviewer	:	If you think it's necessary, who do you idolize? Why?

Male Student	:	Actually, many of my idols have died. Like the Prophet Muhammad sallallaahu alaihi wasallam, then also the scholars, ustadz, kiai and others. But on the other hand, I like a character. He is a character in <i>aaa</i> which in the story he is forced by people to do work. On the other hand, I also like a YouTube creator content. His name is Dani Douglass whose content is about games.
Interviewer	:	“How do you usually see your idol? Is it by watching the live streaming or something else?”
Male Student	:	I usually meet or see my idol from watching his YouTube channel or through a platform called Twitch like streaming tv, in Indonesia it's rarely heard of. But it's very well known abroad.
Interviewer	:	“Do you feel happy when you see or meet your idol? Can you describe the feeling?”
Male Student	:	Even though I've never met my idol, I feel happy when I see him, <i>mmm</i> whether it's from his YouTube channel or Twitch earlier. Not because he's funny, but because of his character and what the content is positive. Although there are also negatives, but it's just for entertainment and jokes.
Interviewer	:	“What are your hopes for the person you idolize in the future?”
Male Student	:	I hope for my idols that they are doing well in their careers and they can improve and what is certain is that I hope to meet them someday.”
Interviewer	:	“What are your favorite foods? Why?”
Male Student	:	My favorite food is pizza. Because I think that in pizza there is a perfect combination of bread mixed with <i>aaa</i> sauce and sausage and other components so that it makes a perfect match.

Interviewer	:	“When do you usually eat your favorite food?”
Male Student	:	“I usually eat pizza once a year. Maybe even more. Because apart from the price being quite expensive, I usually eat this food only when I'm with my extended family. Because the portion is really big and I'm used to eating it together..”
Interviewer	:	“In your opinion, which one is more worth it, between buying and making the food you like? Why is that?”
Male Student	:	Actually recently I just learned how to make pizza. And I practiced a lot for that. But <i>mmm</i> still I prefer to buy or order my favorite pizza at one place namely “Pizza Pian”, I learned how to make pizza from the owner. But it still doesn't taste as good they made it.
Interviewer	:	“Among the many sellers selling your favorite food, where is your favorite place? Why is that?”
Male Student	:	As I mentioned earlier, <i>mmm</i> I prefer to buy pizza at "pizza pian" because I think the pizza is there. The bread is softer and not hard. And the price is pocket-friendly, so I can buy it once a month and compared to other pizzas. Delivery there is very fast and makes customers very satisfied. I have shopped at other pizza but <i>mmm</i> the delivery was really very long and in the end the pizza that was delivered turned out to be hard and that was very disappointing for me personally.”
Interviewer	:	“If you had extra money, would you always buy your favorite food? Why?”
Male Student	:	“No. I don't think we should eat our favorite food often or every day, in my opinion. Pizza is better eaten together. And when I'm alone. I don't think so. Not suitable <i>like</i> for eating alone and in the end I might be more into. Others spend the money I have instead of buying pizza continuously.”

Student C

Interviewer	:	“Why did you choose the English Education Department as your major?”
Male Student	:	In my opinion why did I prefer to major in English because for future levels such as careers it will be easier if we graduate in English. There are many jobs that require English language skills and <i>mmm</i> a wider variety of jobs, not just teachers. Even though initially I chose to major in communication at the beginning, but because I was accepted in the English department, I just live with it.
Interviewer	:	“How do you describe the English Education Department at UIN Antasari Banjarmasin?”
Male Student	:	I think for now the English Education Department is fun, <i>like</i> the people in it are also very supportive and have a positive aura.
Interviewer	:	“What are the tiring things or obstacles to studying in the English Education Departement?”
Male Student	:	Personally, the first is a mistake from oneself, namely being lazy. The second is that English is a rather difficult language to learn because it is not our language but a foreign language, because at the time of learning we are forced to be able to understand a language that is not our language so that requires more effort. Then in my opinion, the reading section is also a bit difficult because we need more effort to be able to keep reading even though we don't understand and are not interested in continuing to read the writing.
Interviewer	:	“Do you have any tips or something to improve yourself in English ?”
Male Student	:	“One of them is defeating yourself first, for example, we are lazy, we push ourselves to be enthusiastic. And <i>mmm</i> also I understand more easily if I ask friends because it's more comfortable to ask everything with friends compared to lecturers where we might be awkward or reluctant to ask questions.”
Interviewer	:	“What are your wish in the future by studying in the English Education Department at UIN Antasari Banjarmasin?”

Male Student	:	“I hope the knowledge I get can be useful in the future <i>like</i> not only when I become a teacher later but also for the social community around me..”
Interviewer	:	“In your opinion, is having an idol necessary? Why?”
Male Student	:	“Of course it is very necessary, because that is what makes us grow. Therefore it is very necessary. In all aspect in my life.”
Interviewer	:	“If you think it's necessary, who do you idolize? Why?”
Male Student	:	Actually I have many idols. Which I use as a benchmark to inspire me. Maybe one. An example is <i>mmm</i> Cristiano Ronaldo. The reason I like him is in terms of the determination and hard work he has so he can become what he is now. He is also able to embrace his friends so that they can become a really great team and win lots of football trophies. Then the next one I also like Baskara Saputra. He is a singer from India. The reason I like him is because the songs he composes are very deep in meaning and very closely related to today's life.
Interviewer	:	“How do you usually see your idol? Is it by watching the live streaming or something else?”
Male Student	:	I don't think I'll ever meet my idol. Yeah, but I often see them. They are from social media, <i>aaa</i> for example, I see Baskara from the songs he has written and maybe the concerts I watch on YouTube. Then for Cristiano Ronaldo, I certainly often see him in matches. Like the World Cup that just took place.
Interviewer	:	“Do you feel happy when you see or meet your idol? Can you describe the feeling?”

Male Student	:	Of course I feel happy when I see my idol because I feel motivated and inspired to be able to improve. Being more improved than before. <i>Mmm</i> The feeling I have is more of an inspired joy.
Interviewer	:	“What are your hopes for the person you idolize in the future?”
Male Student	:	My first definite hope is that someday I will be able to meet my idol idols and for Baskara himself, hopefully he can continue to do great works. And for Cristiano Ronaldo, because this is already his last match, I hope the legend he made remains can be remembered and can be used as a lesson for junior juniors..”
Interviewer	:	“What are your favorite foods? Why?”
Male Student	:	My favorite food is fried rice. Because in my opinion fried rice is the most delicious food and very easy to get so it can be a solution when we are hungry at night. The second is indomie. Indomie in my opinion is very delicious and tastes very stable compared to other brands. And I think only Indomie can maintain its taste and even improve the taste even more delicious. For example, the others can taste fickle and inconsistent. But it's different from indomie which is always stable and fits in the heart.
Interviewer	:	“When do you usually eat your favorite food?”
Male Student	:	I usually eat fried rice at night, <i>aaa</i> but not every day when I feel like it. Likewise with my indomie. So when I just want, but can at night or in the morning.
Interviewer	:	“In your opinion, which one is more worth it, between buying and making the food you like? Why is that?”
Male Student	:	If asked which one is more worth it is definitely more worth making it yourself. Because by making the food we like ourselves, we can be better trained to make dishes. And I think we can also be more. Know how salty or sweet we want. We can estimate <i>mmm</i> the taste itself according to our taste.

Interviewer	:	“Among the many sellers selling your favorite food, where is your favorite place? Why is that?”
Male Student	:	Usually I buy fried rice at Arema stall, near Siring. There has a different taste anyway you have to try. Apart from that, there is also fried rice that I subscribe to, the name Pak De's stall, but he is no longer selling it, even though the one where he is, there are people from Jakarta, you know, who want to buy his fried rice. For indomie itself, I don't have a special place because the best one is made by myself
Interviewer	:	“If you had extra money, would you always buy your favorite food? Why?”
Male Student	:	If I had excess money, I don't think I would always buy my favorite food. But I prefer to try new things or explore culinary delights. So what I haven't tried I will buy with the extra money I have. And I think I like to try new things in anything including food. So not always must buy my favorite food.
Female Student		
Student D		
Interviewer	:	“Why did you choose the English Education Department as your major?”
Female Student	:	First because I really liked English since I was small, then my late father also said that my English skills were also very good so he hoped I could continue my English education to a higher level. So my father used to really like English and was interested, but he didn't know how to channel it and study it more deeply, so he didn't study English seriously or in formal education.
Interviewer	:	“How do you describe the English Education Department at UIN Antasari Banjarmasin?”

Female Student	:	The English Education Department is very large and very different from the English departments at other campuses. and <i>mmm</i> also many students majoring in English education like to teach because usually when there is a teaching assignment we are always happy and never refuse or complain about it because English is very fun.
Interviewer	:	“What are the tiring things or obstacles to studying in the English Education Departement?”
Female Student	:	Maybe it's more grammartical and reading because I need to read a lot and that makes me need to struggle more for it. And grammar is also very <i>mmm</i> challenging because there you have to pay attention to whether it is past tense, present tense and that's only about tenses not about other components such as articles and so on.
Interviewer	:	“Do you have any tips or something to improve yourself in English ?”
Female Student	:	Yes of course. I have to read more is the solution because I am a person <i>aaa</i> who if I don't understand something then I will continue to try to understand it in any way. Because later if I don't understand it will come back to me too dizzy myself when the class is in progress so I try hard to make myself understand. For readign, I prefer to read a lot of easy articles first with light explanations so that I can easily understand them and then when I get used to them I will look for articles with more complicated discussions to understand
Interviewer	:	“What are your wish in the future by studying in the English Education Department at UIN Antasari Banjarmasin?”
Female Student	:	My hope is that I can show that English is not only for westerners but can also be useful for everyone. Because <i>mmm</i> many people say that English is not our language, but the language of the West and there is no point in learning the language of the West. I want to prove that by being skilled in English I can spread kindness to the whole world and that makes it easier for me to spread kindness everywhere.

Interviewer	:	“In your opinion, is having an idol necessary? Why?”
Female Student	:	I think having an idol is necessary because <i>aaa</i> I need a role model to live my life. When I'm down, I can see my role model.
Interviewer	:	“If you think it's necessary, who do you idolize? Why?”
Female Student	:	Yes, I have an idol named Habib Jafar al. Husein. He is a lecturer where he is very social among young people, very famous. And why do I like him? That is because when he delivers a lecture he never uses words <i>like</i> that are difficult to understand or standard words so that the target for teenagers can more easily understand what he means. And especially personally I feel very understanding and very understanding of the lecture he delivered and I really like it. His style of lecturing. He is also able to answer questions that are difficult to answer. I think it is difficult to answer because nowadays there are many questions that can be said to be beyond reason. But he can answer them again in simple language to understand. And he can connect between reason and religion.
Interviewer	:	“How do you usually see your idol? Is it by watching the live streaming or something else?”
Female Student	:	Usually I see it through watching his YouTube channel or most often through the tiktok platform. Because it targets a lot of the younger generation, Tik Tok as an application for the younger generation <i>mmm</i> also provides it. There are lots of snippets of his lectures which the younger generation will see more often.
Interviewer	:	“Do you feel happy when you see or meet your idol? Can you describe the feeling?”

Female Student	:	Yes, I am very happy when I see my idol because I am more amazed at him because he can answer questions that we can say out of logical, we said. Sometimes people ask questions. And the answers <i>aaa</i> don't make sense, many people don't accept or assume that the speaker was not qualified, but he always gave rational answers that could be accepted by reason and lots of young people were amazed by that, you know. So I am very impressed with him.
Interviewer	:	“What are your hopes for the person you idolize in the future?”
Female Student	:	What is certain is that I hope that he will continue to be able to preach. What should he preach in this era and my other hope is that his faith will remain strong, not be broken by questions that can be considered dangerous and can threaten one's faith. But I hope and I believe that Habib Ja'far will be able to remain strong in his faith and that Allah will give guidance through Habib Ja'far to people who are still confused and still doubtful about their own religion.
Interviewer	:	“What are your favorite foods? Why?”
Female Student	:	I prefer foods that contain nuts such as gado, gado, satay and others. The main ingredient is peanuts. Because in my opinion, foods that contain nuts are tastier and tastier and taste more special than other foods.
Interviewer	:	“When do you usually eat your favorite food?”
Female Student	:	I prefer to eat my favorite food at night. <i>Aaa</i> Because it tastes better and all the spices taste better if we eat it at night because it is more suitable for enjoying food at night.
Interviewer	:	“In your opinion, which one is more worth it, between buying and making the food you like? Why is that?”
Female Student	:	Personally, it's better to buy it, for example, far from mom, but when you're at home, it's actually made by mom. It's better than outside because we can request what we want. What's the level of doneness. Do you want it to be very

	cooked or not because <i>mmm</i> I honestly prefer medium to overcook because there are satay which are usually very cooked so they shrink and turn black a lot. So I don't like it.
Interviewer	: "Among the many sellers selling your favorite food, where is your favorite place? Why is that?"
Female Student	: Usually I buy it at the direction. Jalan Pramuka there are people who sell it is <i>aaa</i> javanese so the satay is Javanese satay and the taste is different if for example the one selling it is Javanese because you can tell from the seasoning it is thicker. The peanut sauce is more <i>mmm</i> flavourful. Somehow the taste must be different and I can feel it. So I usually buy it there at that place because the satay is delicious and not stingy with the sauce.
Interviewer	: "If you had extra money, would you always buy your favorite food? Why?"
Female Student	: Yes, I definitely spend it on the food I like, whether it's satay or gado gado. Because <i>mmm</i> that's how much I like it to the point that if I am fed 3 times, I can eat satay one day because I like it so much, so if I have extra money, I will definitely give it to satay and if I want to give myself a self-reward, I will buy it. satay or gado gado for myself.

#### Student E

Interviewer	: "Why did you choose the English Education Department as your major?"
-------------	--

Female Student	:	Actually I am a gap year, I actually chose a booth in Jakarta and sacrificed a year to prepare myself to take the booth exam. So during that gap year I studied in an English village and maybe from there I started to like English even though I had been interested since high school, but studying in an English village made me even more curious and interested in English education. But because someone offered me to enter STAN and to enter there it required a high fee, so I focused more on myself and decided not to study at any campus. And <i>mmm</i> it turned out that when registration was supposed to have been opened, STAN registration was not held due to the pandemic. Of course I was very sad and decided to study at UIN Antasari Banjarmasin because the campus is also in the city where I live and I also chose to major in English education as I liked before.
Interviewer	:	“How do you describe the English Education Department at UIN Antasari Banjarmasin?”
Female Student	:	The English Education Department is really cool because many of the lecturers are graduates from abroad, and there is also a very cool lecturer in my opinion where she opens 24-hour consultations for our proposals. There are also lecturers who are very fast in response and are always there for us to consult on our proposals. The event is also much like yesterday's invents to strengthen friendship between classmates and others.
Interviewer	:	“What are the tiring things or obstacles to studying in the English Education Department?”
Female Student	:	There were no complaints during semesters 1-4 because everything was easy and was still being lived in a fun and relaxed way. In the fifth semester, it started to get complicated and confusing, but again, it was time to level up and start getting serious. There are also some things that I think <i>aaa</i> that are rather difficult and hinder learning, namely reading and writing skills. In reading we have to read a lot and I don't like reading writing that doesn't have pictures like journal articles and sometimes it's also difficult for me to translate a few sentences even though I've used Google Translate but the results still don't quite match the intended meaning.

Interviewer	:	“Do you have any tips or something to improve yourself in English ?”
Female Student	:	What is certain is always the enthusiasm to learn and try, because the more we learn the more we know. I prefer to watch <i>mmm</i> YouTube for learning English with cartoon content that makes me excited to understand and learn English. And also if I'm walking I usually also describe something using English so that my pronunciation and vocabulary will be very well trained as well as other aspects such as confidence and grammar I will also be trained from my habits.
Interviewer	:	“What are your wish in the future by studying in the English Education Department at UIN Antasari Banjarmasin?”
Female Student	:	What is certain is that first, from learning now, I hope I can apply it to my children so that they can speak English from a young age, <i>mmm</i> then they can become civil servant teachers, hehehe realistic sis. Then it could also be the ministry of language and I also have a dream to be able to go abroad and get a scholarship to continue my education.
Interviewer	:	“In your opinion, is having an idol necessary? Why?”
Female Student	:	I think it's necessary to have an idol because we can model the good things from the people we idolize and as an encouragement.
Interviewer	:	“If you think it's necessary, who do you idolize? Why?”
Female Student	:	There was one of my UPB teachers who became my idol because he had very good pronunciation when he taught. I really like listening to him speak English because his pronunciation is clear and very easy to understand. Even though in UPB learning at that time he used full English but I liked it and it was easy for me to understand what he was saying. So I am very happy to hear him and feel trained in English, especially in the field of listening by listening to him speak full English every lesson. And also because if for example we were told to also speak English. Whatever we said, even if it was wrong. But at

		least we had the courage to <i>aaa</i> try and it would be appreciated by him no matter how small his mistake, he would definitely listen first and then correct it, never directly blaming it. I think I really admire him. And make him different from other lecturers or teachers.
Interviewer	:	“How do you usually see your idol? Is it by watching the live streaming or something else?”
Female Student	:	Because he is my UPB lecturer, so I often see him at UPB and learning takes place. I met him at prime time. Which was recently held during the last semester break. I usually go at 7 am.
Interviewer	:	“Do you feel happy when you see or meet your idol? Can you describe the feeling?”
Female Student	:	Yes, of course, I am very happy when I see my teacher, whom I idolize. But I am a bit nervous if, for example, I meet him and I am asked to speak because to be honest, I am not very good at it and I am still nervous when asked to speak in front of many people.
Interviewer	:	“What are your hopes for the person you idolize in the future?”
Female Student	:	Hopefully he can continue his education to a higher level. So that she can become a permanent lecturer at Uin Antasari Banjarmasin. Because in my opinion he is very suitable to be a lecturer in the English Education Department. And I hope that she will always be healthy and make it easier for him to improve his career and continue to be an inspiring person.
Interviewer	:	“What are your favorite foods? Why?”
Female Student	:	I like fried rice because I think fried rice is simple and very easy to eat because suppose I'm hungry at night, I can make my own fried rice and it's delicious and also this fried rice is filling. So I guess I can get both delicious and full in one meal.
Interviewer	:	“When do you usually eat your favorite food?”

Female Student	:	Usually I eat fried rice when I want to give myself a self-reward for an achievement I've gotten. Or suppose I want to be able to make it like for example I want to study, but I want fried rice. So I made fried rice first and ate fried rice first and then learned.
Interviewer	:	"In your opinion, which one is more worth it, between buying and making the food you like? Why is that?"
Female Student	:	I think it's actually more worth it to buy because. If we want something, it's more worth it to buy, for example, save word or we're on BM, it's faster to buy and we don't have to be tired to make it anymore because we're already tired of reaching the achievement earlier. So self reward by buying the food we like.
Interviewer	:	"Among the many sellers selling your favorite food, where is your favorite place? Why is that?"
Female Student	:	Yes, I usually buy the fried rice that I like on Jalan Bumi Mas, because there the rice is not dry, not hard and has very good seasoning. It has a special characteristic, then you get one piece of chicken and the egg is sliced, it's really worth it to buy.
Interviewer	:	"If you had extra money, would you always buy your favorite food? Why?"
Female Student	:	If I have excess money. Yes, I will spend it on fried rice because in my opinion I really like fried rice and if I want to buy it, and if I have extra money, I will also buy it.

#### Student F

Interviewer	:	"Why did you choose the English Education Department as your major?"
-------------	---	--

---

Female Student	:	First, as we all know that English is a universal language, wherever we go, English skills are definitely needed. Then, from the English department, we can get many kinds of jobs, for example tour guides, teachers, lecturers and others, and if you want to enter a company, what you need is English skills. And indeed I have loved English since I was little and often get high marks in that subject.
----------------	---	--

---

Interviewer	:	“How do you describe the English Education Department at UIN Antasari Banjarmasin?”
-------------	---	---

---

Female Student	:	So first, the English Education Department at UIN Antasari Banjarmasin has many courses that are not only about English but also from a religious perspective and so on. Second, in this department it's not only always about English but also studying a lot of Islamic subjects. Then, the existing facilities might be equipped again, for example, now we have started learning teaching media where learning media are really needed to support the learning process, so it would be better if we could provide examples of various kinds of existing media so that we know and are familiar with media and can apply it to our students when we teach later.
----------------	---	---

---

Interviewer	:	“What are the tiring things or obstacles to studying in the English Education Departement?”
-------------	---	---

---

Female Student	:	Because English is not our language, the main obstacle is vocabulary and meaning. People will not be eager to learn something if they don't understand what is being studied or are usually in full English in learning. By having a lot of vocabulary it will greatly facilitate us in learning and understanding English. For me personally, grammar is not too much of a headache because my teacher once said that the important thing about English is self-confidence, the important thing is to have the courage to try to speak even though the grammar is messy and there are lots of mistakes, but at least our speaking skills can be trained as long as what we say can still be done. understood by our interlocutors, grammar is not too big a thing to be concerned about, although I will still learn to improve my grammar.
----------------	---	--

---

Interviewer	:	“Do you have any tips or something to improve yourself in English ?”
-------------	---	--

---

Female Student	:	I will cover my weaknesses with the strengths I have, for example, I said earlier that I was weak in vocabulary, so I will cover my weaknesses earlier with my strengths. Dare to appear confident. Then I'm more interested in learning through watching content on TikTok because I often open TikTok and there are content creators who talk about learning English so it makes it easier for me to learn.
Interviewer	:	“What are your wish in the future by studying in the English Education Department at UIN Antasari Banjarmasin?”
Female Student	:	The first thing that is certain that all students want is that when they graduate they can get a job right away, and English majors can get broad job opportunities, of course the hope is to get a suitable job. It doesn't have to always be a teacher as our main job, but we can also work in other ways such as tour guides but still take advantage of the knowledge gained, namely education where I will still set up courses and teach there besides my main job.
Interviewer	:	“In your opinion, is having an idol necessary? Why?”
Female Student	:	In my opinion, having an idol is fifty fifty, because I personally look more to myself. I'm pretend to see myself as a motivation for myself. But on the one hand if it's really stuck and I can't see. What else is there in me, I need someone else for me to set as a benchmark and. Give me encouragement through the achievements he has. Here. That person is one of the Indonesian actresses who is also extraordinarily smart is Maudy Ayunda. I like Maudy Ayunda because she is a very independent, educated, multi-talented person. As we can see he was able to continue his education even though he is an artist who we certainly know has played a lot and must be busy in the film world but he can still manage his time to continue his education, besides that he also has a very good manner. She is polite and low profile. And very suitable to be a public figure.
Interviewer	:	“If you think it's necessary, who do you idolize? Why?”

Female Student	:	I really like maudy ayunda first because she is an independent and very smart woman then secondly besides her intelligence she also has very good behavior she is a low profile person and not arrogant with what she has then third because she is young like What we know is that young people need someone who can be emulated. And I think that Ayunda is very, very appropriate to be called a public figure because she is very reflective and inspires a lot of teenagers.
Interviewer	:	“How do you usually see your idol? Is it by watching the live streaming or something else?”
Female Student	:	Usually I often see Maudy Ayunda on social media. Yes, I often follow his live streaming. Regarding what activities she does there and maybe more to the works in the film field that she plays, like Habibie and Ainun and others.
Interviewer	:	“Do you feel happy when you see or meet your idol? Can you describe the feeling?”
Female Student	:	When I saw Maudy Ayunda, I was more motivated by the greatness and achievements she already had. And I, as her fan, felt proud. For the achievements she got, because. I feel that he really deserves my idol.
Interviewer	:	“What are your hopes for the person you idolize in the future?”
Female Student	:	My hope is for Maudy Ayunda, that she can continue to spread positive things and continue to be herself in a very good manner. And I hope that by changing his status from being single to being married or married, he can still actively inspire young people to continue working and continue their education.
Interviewer	:	“What are your favorite foods? Why?”
Female Student	:	My favorite food is Ashura Porridge which is Ashura porridge which is made every 10th of Muharram in the Islamic year. The reason I like it is because. Besides tasting very good, ashura porridge also has a lot of deep meaning that makes me feel very grateful to be able to

---

	eat my favorite food. It is also a form of gratitude because on the 10th of Muharram many people can share with each other even if it's just giving porridge. So because the time is special it is also because the taste is no less special.
Interviewer	: "When do you usually eat your favorite food?"
Female Student	: Of course, because it is ashura porridge, I usually eat it on the 10th of Muharom when people make ashura porridge, because at my place it is not allowed to make ashura porridge at any time, so it can only be made at 10 muharom. So usually when I really wanted to eat porridge, so I just made regular porridge. Not ashura porridge.
Interviewer	: "In your opinion, which one is more worth it, between buying and making the food you like? Why is that?"
Female Student	: It's more worth making Ashura porridge yourself with your family because it's a very precious moment when all the families get together and make Ashura porridge. Besides that, the taste is definitely different, made by my family, especially my aunt, it is very very distinctive and different from several other ways, in my opinion. So if asked, it's definitely more worth it to make it yourself. In addition to the moment of togetherness and the taste is definitely different.
Interviewer	: "Among the many sellers selling your favorite food, where is your favorite place? Why is that?"
Female Student	: As for the asyura flavor, of course. Oh, it's rare that someone sells it, for sure it's made and then divided, so maybe it's made by whoever is delicious, it's homemade. My aunt made it because my aunt made it very very delicious. Anyway, it's different. If for example my mother made the same as my aunt's and I prefer my aunt's.
Interviewer	: "If you had extra money, would you always buy your favorite food? Why?"

---

---

Female Student	:	Maybe apart from ashura porridge, I'm more into drinking coffee because I'm really, really a coffee fanatic, I like to drink coffee before studying. And I think I also like to try new things like coffee in many places or cafes. Apart from buying coffee at the cafe, we also buy a place so the place is very influential. Well, so if I have extra money, I usually go to places where there are cafes that sell various kinds of coffee and I buy coffee only at other times. When I don't feel like it, I can just give the excess money to others, I don't always have to buy coffee.
