A. Conclusion

After describes data in the previous chapter about how are the students self-confidence in speaking English in the classroom at Unit Pengembangan Bahasa, the researcher make conclusion that can be seen as follow:

1. The students self confidence in speaking classroom at Unit pengembangan bahasa 6 th group most of students have low confidence compared with students who have high level of self confidence is coused by several factors such as do not enjoy learning english, lack of self confidence,fear of making mistakes,shyness,lack of motivation, lack of vocabulary.
2. Students enjoy in learning english that is because of english teacher always prepare strategies,methods before teaching. The teacher required students to use english so that students are accustomed to speaking english and students also have a high level of self confidence. After learning he

always give students motivation, because lack of motivation is the way students do not self-confidence in speaking English. Teacher's efforts to improve students' self-confidence in speaking English using variation method, giving motivation to students to improve their self-confidence and tell them how important English is in life.

B. Suggestions

The researcher will give the suggestion, as follows:

1. Students

The researcher hopes the students can improve their English, not only speaking skill, but other English skills, such as listening, reading, and listening further, do not feel bored to practice because practice is the key to build your English speaking skill. Then, do not be shy if you make mistakes in English speaking. If you find a problem in speaking skill, consult with your teacher or your friend. Do not pay attention to grammar prioritizing communicative, the important information you convey. Furthermore, it also creates an environment and atmosphere that is accustomed to speaking English using all everyday things that allow you to choose to use English.

2. To the further researchers

The researcher suggest to further researcher can continonue to conduct a researchers with this topic in another english skill,maybe reading or writing. The researcher hope the next researcher can find something new from this topic and do deeper analysis and research about students self confidence and the researcher also hope that the next researcher will do a better research and get satisfy result that bring a good impact to be participant and the environment.
