

CHAPTER V CLOSURE

In this chapter, the researcher explains the conclusion of the outcome thesis and makes suggestions. The conclusion is meant to answer the research issues raised by this study. The recommendation is intended for professors, students, and future research.

A. Conclusion

Based on the research result, the researcher could conclude Teacher's strategies in teaching vocabulary for young learners in a rural area:

Researcher could conclude that teacher used translation strategy for young learners in a rural area to develop their vocabulary and teacher applied flash card and sing a song to make students enjoy in learning vocabulary.

B. Suggestion

Based on the findings of this study, the researcher would like to make the following suggestion:

1. For English Teacher of EYL

It is better to create varieties of strategies in teaching English for young learners to interact the learners attention in improving their vocabularies.

2. For Parents

Parent should motivate their children in memorizing English vocabulary not only from their teacher but also that provided at youtube, Tiktok, or other sources..

3. The Next Reseacher

For better research, the next researcher who wants to do something similar should thoroughly comprehend the problem. The future research may conduct this investigation on various level such as in elementary school. It was also advised that the following researchers undertake study on the teacher's ability in teaching English to young learners.
