

CHAPTER V

CLOSURE

A. Conclusion

In this research, the researcher did an investigation about the implementation of the debate learning that conducted in an organization namely LiDS Educia. In order to know the implementation, the researcher observed on the process of the debate learning that conducted online through some applications. This research intended to know how the coaches conducted the online English debate learning through some supporting applications. Besides, this research also has purpose to know the challenges that faced by the coaches while carrying the learning.

The results showed that online English debate learning at LiDS Educia was conducted used two applications namely WhatsApp as virtual class and Google Meet as a virtual room for practicing debate.

1. There are three stages in the online English debate learning at LiDS Educia: Debate preparation, debate lesson and debate practice.
2. There are five challenges faced by LiDS Educia coaches: the capacity of the coaches, the members' commitment, the lack of the material, the internet access and the insufficient learnig media.

B. Suggestions

As mentioned in the previous chapter, this research analyzed the implementation of online debate learning in LiDS Educia organization. The following suggestions are presented for those who are willing to contribute to the present research about the online debate learning.

1. For the Organization, the organization needs to maintain their goal and principal in every condition. It suggest to the organization to make arrangement about the learning things, such as the way to conduct it, how to conduct it offline and online, then the organization also need to provide a good and enough sources of the material in order to make the learning successful.
2. For the Coaches, being a coach meant that should have various ways to deliver knowledge. It suggest to the coaches to take more knowledge and experiences on how to influence and gather people attention so the members could be more active and the learning can go well.
3. For the members, the purpose of joining organization is to get the skills that offer in it. So, the members need to remember their reason to stay in organization and follow the things they should be doing.
4. For the next researcher, this research is not a complete research in the field of debate and online learning. So, the researcher suggest to the next researcher to explore others major in this field such as the advantages, disadvantages, impact, or solutions to the challenges appear.
