

CHAPTER V

CLOSURE

A. CONCLUSION

Based on the research findings data have been described in previous chapter. There are several things that can be concluded.

Digital storytelling is storytelling in written or oral form, visual or artistic forms that use digital places or methods and digital storytelling is a combination of video, audio, images and text to bring stories to life, digital storytelling provides the ability to sharing experiences and stories and digital storytelling enables individuals to use digital tools to tell a story

B. Suggestion

After conducted the research, there are research weaknesses that the next researcher who wants to work in the same field should address.

The researcher would like to propose the following suggestion :

1. For English Teacher

The researcher hopes, after teachers reading this thesis will help teachers increase their creativity in the English learning process and create a better teaching and learning process.

2. For the next Researchers

Since this is digital storytelling, the researcher hopes that this research can have further developments and innovations.

3. For the Readers

The researcher hopes that the results of this research will help

readers prepare or add new information about teaching and learning English.
