

## CHAPTER V

### CLOSURE

#### A. Conclusion

The data from the previous chapter were discussed in as a result of the research's findings.

there are several things that can be concluded :

1. Reading and writing comprehension strategies for learning English  
What students at SMAN 4 Muara Teweh usually use is an comprehension strategy in which students read the entire text first and then students understand the content of the reading to find topics of discussion in the reading.
2. What students do in understanding reading and writing material in online learning is to first determine what topics they will discuss then they read it first, if there is something they don't understand then they will look for it using a dictionary or google translate media, and they will learn to write the right words so they can understand.

## **B. Suggestion**

After conducting research, there are weaknesses of this research that the next researcher who want to conduct research in the same topic should correct.

The researcher would like to propose the following suggestion :

### 1. For English Teacher

The researcher hopes that after reading this thesis, it will encourage instructors to use their imaginations to discover new approaches to teaching English through reading and writing.

### 2. For the further Researchers

The researcher makes recommendations for more researchers who wish to look into the strategies for reading and writing information more thoroughly. Therefore, this researcher has made more advancements.

### 3. For the Readers

The researcher hopes that readers will find the study's findings valuable for adding fresh knowledge regarding English teaching and learning.
