

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### a. Conclusion

After analyzing all of this in this thesis, the following conclusion can be drawn :

1. There have been three types of code-mixing namely, insertion, alternation, congruent lexicalization employed by Maudy Ayuda's in a Video Youtube channel. Maudy Ayunda the dominant utterances within the insertion code-mixing. There are 20 data of 48 data.
2. There have been three type of code-switching namely, Tag Switching, Intra-sentential switching, Inter-sentential switching employed by Maudy Ayunda in a Video Youtube channel. The results of this research shows that Maudy Ayunda mostly used inter-sentential switching. There are 14 data of 48 data.

#### b. Sugestion

1. The primary goal of this study is to investigate the various reasons for code mixing and code switching. This study only covers a small portion of the sociolinguistics topics. There are still more cases to be studied in sociolinguistics. It is envisaged that this research will frequently serve as a reference for the other researcher.
2. Furthermore, students can use this research to supplement their knowledge of sociolinguistics studies.
