The content need to be restructure by adding sub heading. There are few paragraphs in the literature review that not synchronize with the content. The authors can explain each of the capital in different sub heading to create understanding. Citation also need to be proofread as there are few not in the format. The quote by informants format also not consistent, few in the paragraph and few in its on paragraph. More figure can be used to show more on the findings.

URGENT!! Pay attention to the following instructions carefully! YOU MUST DO!!

- 1). PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS
<http://iaescore.com/gfa/ijere.docx> (Use this file as your paper template!!) and pay attention to the checklist for preparing your FINAL paper for publication:
<http://ijere.iaescore.com/index.php/IJERE/about/editorialPolicies#custom-2>
- 2). It is mandatory to present your final paper according to "IMRADC style" format, i.e.:
 1. INTRODUCTION
 2. The Proposed Method/Framework/Procedure specifically designed (optional)
 3. METHOD
 4. RESULTS AND DISCUSSION
 5. CONCLUSIONSee <http://iaescore.com/gfa/ijere.docx>
- 3). Add biographies of authors as our template (include links to the 4 authors' profiles, do not delete any icons in the template).
--> Provide links for all authors to the 4 icons (Scholar, Scopus, Publons and ORCID). It is mandatory!! See <http://iaescore.com/gfa/ijere.docx>
- 4). Use different PATTERNS for presenting different results in your figures/graphics (instead of different colors). It is mandatory!! See <http://iaescore.com/gfa/ijere.docx>
- 5). Please ensure that all references have been cited in your text. Use a tool such as EndNote, Mendeley, or Zotero for reference management and formatting, and choose IEEE style. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3], [4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5]. It is not necessary to mention an author's name, pages

used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list. Examples of in-text citations:

This theory was first put forward in 1970 [9].

Zadeh [10] has argued that ...

Several recent studies [7], [9], [11]-[15] have suggested that....

... end of the line for my research [16].

6). Please present all references as complete as possible and use IEEE style (include information of DOIs, volume, number, pages, etc). If it is available, DOI information is mandatory!! See <http://iaescore.com/gfa/ijere.docx>

In order to cover part of the publication cost, each accepted paper is charged: USD 335. This charge is for the first 8 pages, and if any published manuscript over 8 pages will incur extra charges USD50 per page.
