B. Suggestions

According to the findings above, the researcher makes the following major suggestions:

1. The lecturer

Lecturers is suggested to provide feedback or comments to each individual student after completing an assignment, if the YouTube video is from the lecturer's own YouTube channel, it is recommended to make the content more interesting with language that is easy to understand, if necessary, you can mix in a little Indonesian, and the final suggestion is that if you choose a video that contains examples, it is best to provide direct examples explained by the lecturer.

2. Students

Students are expected to prepare themselves better when learning, show a strong intention to learn or be more enthusiastic about learning. Apart from that, Students are required to be able to offer feedback to the lecturer if they encounter anything disagreeable while studying, and it is encouraged that students ask any concerns about learning challenges.

3. Further Researcher

Further researcher is suggested to explore more about student performance with evaluation or assessment so they can find out the differences between essay writing lessons that use the YouTube channel and those that don't.
