

CHAPTER V

CLOSURE

A. Conclusion

In this research, the researcher formulated two research questions that are, how do the teacher applying schoology application in reading comprehension in reading comprehension assessment and what are the challenges in applying schoology application in reading comprehension in reading comprehension assessment.

Based on the research, the researcher concludes they are:

1. The teacher using online applications to design the assessment namely Schoology.
2. In applying schoology teacher using assessment such as audio for reading, highlight the word, multiple choice and short answer or essay for reading comprehension.
3. Time consuming, time management.
4. Lack of training in applying schoolgy.
5. In this challenges related to the theory for challenges in designing authentic assessment.

B. Suggestion

Based on conclusions are mentioned above the researcher will make some suggestions:

1. The teacher is expected to continue and more develop variety online assessment that is going to be used so that the teaher will not get bored and understand and enjoy the assessment.

2. Teacher also expected to still maintain and improve students discipline by giving the students a punishment or giving less for score that who did not join the class or assessment.
3. The teacher is expected to knowing more about authentic assessment, teacher should create of authentic task and activities for students and asked students to perform their assignment or create task so that students more creative.
