

## CHAPTER V

### CLOSURE

This section presents the research results and recommendations. The conclusions answer the research questions, as well as recommendations for improving teachers, prospective teachers, and related research.

#### A. Conclusion

Based on the research question, the conclusion of this research can be stated as below:

1. The strategies that teacher use in implementing HOTS in teaching reading are divergent question, group discussion and giving feedback.
2. The problems that teacher faced in implementing HOTS in teaching reading are teacher running out of time because students are very lack at vocabulary and students mastery in English, teacher need to find out another source beside the school book in preparing the HOTS learning and the school did not suitable for learning.

#### B. Suggestion

After the explanation of the result and the conclusion, there are some suggestion that researcher explain as below:

##### 1. Teachers

The researcher hopes that the teacher after reading this research can implement HOTS in their teaching. And also the researcher hopes for all the teacher who implementing HOTS, can consider the challenges that

might be happen and can prepare the solution based on the challenges in this research.

2. Educational institution

The researcher hopes educational institution can consider the curriculum book. From the result of the research, teacher hard to implement HOTS because the curriculum expect to finish with some material. But when teacher want to apply HOTS, it needs a lot of time.

3. The next research

The researcher suggests that further research be conducted on the same topic in another teaching such as writing, listening, and others.
