WayV Dream Launch [English Translation]

Yeah, let's go
 Swinging around the universe.
 I'm still learning to control.
 Launch your dreams into distant outer space.
 Even if I lose weight.
 There is a smile on my face.
 Waiting for the dream launch to accelerate closer to success.
 Oh yeah, yeah.

I'm silent, snoring, gliding.
 The heart is coming out, the hair is also blown up.
 What is? Counting down now, four, three, two, one.
 I'm brave.
 But in fact, I have no time to turn back.

I'm afraid I will reverse the route map.
 I have never been able to catch up with the operation of the earth.
 Open all fears, it's alright so far.
 A childish face.
 These days has grown up.

If the stars are outside the light years.
 The flicker is still so persevering.
 Every advancement is counted forward.
 Ready, yeah.
 If it's because of youth.
 The ideal fuel is passion.
 So decided.
 Oh, yeah.

Swinging around the universe.
 I'm still learning to control.
 Launch your dreams into distant outer space.
 Even if I lose weight.
 There is a smile on my face.
 Waiting for the dream launch to accelerate closer to success.
 Oh yeah, yeah.

What is bravery?
 Whether there is no heavy state.
 Inadvertently knocking the direction.

When can you land at the top of the world?
 But that's okay 'cause.
 I don't know if you know it.

Anytime you have to be bold for me.
 Let's keep up the good work.
 The road is flatter, yeah.
 Seeing yourself express your goals.
 Where do you think you will arrive?
 A little shoulder.

Want to be the star of the directions.
 Efforts must double my perseverance.
 Every move must be able to go forward.
 Ready, yeah.
 Your blueprint is young.
 The ideal design is more streamlined.
 A word.
 Oh, baby.

Swinging around the universe.
 I'm still learning to control.
 Launch your dreams into distant outer space.
 Even if I lose weight.
 There is a smile on my face.
 Waiting for the dream launch to accelerate closer to success.
 Oh yeah, yeah.

Although laughing, I'm dreaming.
 Are you thinking what I'm thinking?
 If it is a dream, I still remember it.
 Test my ability to be durable and my new attitude.
 I'm looking forward to vacating for all my waiting.
 Want to live.

Swinging around the universe.
 No, I should say.
 The universe will also be touched.
 I will control in the future.
 Launch your dreams into distant outer space.
 Never waste a second.
 Cold wind when flying.
 Can't erase my smile.
 Waiting for the dream launch to accelerate closer to success.
 I never find an excuse to buffer
 Oh yeah, yeah.

Here we go, here we go, fire.
Here it goes, here it goes, higher.
Little bit higher
Oh, oh (Ay!) Oh, oh (ay!)

Just a little bit.
Here we go, here we go, fire (fire again)
Here it goes, here it goes, higher.
Little bit higher.
Oh, oh (ay!) Oh, oh (ay!)

Even if I wait any longer.

WayV Take Off [English Translation]

Yeah the city's rain is choking, yeah
 Neon lights are shining brightly
 Street lights shining on Skywalkers silhouette
 Mysterious feathers swirling refusing to leave
 Like the legendary believer Hengxin, hey
 I discovered an unknown flying object
 Many people look to the sky
 But act as if nothing had happened

Yeah yeah the smell of smoke in the air
 Why do I hear the sound of my heartbeat as a countdown?
 As if the launch pad is ready
 The earth shakes when the button is pressed
 The wind blows wildly

Yeah if there is no record recorded
 Don't be sad with it
 Your freedom can't be wronged
 Like a mysterious signal that doesn't exist
 That appears like a fire on the radar

Can I be honest? I so hate to be controlled oh no no
 The rules of flight has only one rule
 Which is to forget all the rules
 If you want to climb up or rotate (in a plane)
 Trust only the compass of free will

Flying wingless, I'm ready for take off take off
 Towards the outside sky take off
 Flying wingless, I'm ready for take off take off
 Face towards the outside sky take off

Galloping is the wildness of your life
 You have ambition that can resist gravity
 You exist as the exception
 So baby face towards the outside sky, take off (yeah)

Oh oh who can stop me from flying to the sky?
 Oh oh flying wingless, I'm ready for take off

Talkin' 'bout, why is natural selection of the soul greedy?
 DNA determines the survival of the fittest

Perhaps the beauty I long for
 Has disappeared from the face of the earth
 I'll look towards the city in the sky

Yeah jump strongly, focus on raising your two arms
 Waving and roaring have height
 Yeah, and the world, I understand that I am not understood
 So let them hunt for those with no wings, rock your world
 Bright celestial beings can be me and you

Flying wingless, I'm ready for take off take off
 Towards the outside sky take off
 Flying wingless, I'm ready for take off take off
 Face towards the outside sky take off

Galloping is the wildness of your life
 You have ambition that can resist gravity
 You exist as the exception
 So baby face towards the outside sky, take off

(Fly)

Take off (Fly)
 Take off

Oh looking over the earth, as you conquer the universe behind you
 The beat of the countdown like usual say goodbye
 Towards a profound future, we will fly away

Flying wingless, I'm ready for take off take off
 Towards the outside sky take off
 Flying wingless, I'm ready for take off take off
 Face towards the outside sky take off

Defined by my heartbeat
 This is an incredible flight
 You are a witness as my companion
 So baby face towards the outside sky, take off (take off)

Come on face towards the outside sky, take off take off
 Bring all of your goodness
 Come on face towards the outside sky, take off take off
 Bring all of your goodness

Oh oh who can stop me from flying to the sky?
 Oh oh flying wingless, take take off (flying)

WayV Let Me Love U [English Translation]

Alright uh, woo, baby
 You're just standing by the street
 Yet I can't control the rhythm of my heart beat, Yeah
 Can't think of an excuse so we can have an accidental encounter
 My body involuntarily moves towards you
 Using all the ways to make you understand
 want you to fall in love uncontrollably too, noh

A perfect blend of sweetness,
 my pace got messed up when I met you
 Girl you're mine, all mine baby

Love u love u you're so wonderful, so unparalleled.
 The whole world love u love u
 I'm fallin' in love I'm in love
 I'm in love let me love you
 I won't let go even once when we hold hands baby
 You and I, we're in love and not letting go baby
 Love u love u
 I'm fallin' in love I'm in love
 I'm in love let me love you

You
 You you got me fallin' in love I'm in love

 I'm willing to trade my everything for you
 Anything to make you smile
 One thousand roses, a candlelight dinner for two
 Every word of my heartfelt confession is writing on the card
 Oh baby you'll be in a movie,
 wanting to embark on a romantic journey

A perfect blend of sweetness,
 my pace got messed up when I met you
 Girl you're mine, all mine baby

WayV Come back [English Translation]

Is this what you want?

Go!

If you've received it, reply to me, don't stay silent

My senses surpass time and space

Calling me with your language

In the dark of night

(Waiting for your love)

Why are you gently sighing?

Already a hurricane circling in my skies

Every night you close your eyes and fall asleep

The darkness of my world arrives

Want you to come back

Oh even your every breath I don't want to forget (Thinking about you)

Run to me, come back

Turns out every day without you

Is the district of nightmares

Every day

Want you to come

In the drifting of love I have nowhere to go

In the loneliness of abandonment, who silenced the light?

In a sea of faces in the crowd

Only you and I are on the same frequency

The memories resurface, I've learnt my lesson

I didn't listen to your voice, I'm sorry

It's you who taught me

Come back to me

Why are you gently sighing?

Already a hurricane circling in my skies

Every night you close your eyes and fall asleep

The darkness of my world arrives

Want you to come back

Oh even your every breath I don't want to forget (Thinking about you)

Run to me, come back

Turns out every day without you

Is the district of nightmares

Every day
Want you to come

In the drifting of love I have nowhere to go
In the loneliness of abandonment, who silenced the light?

I miss the times when we were together
Briefness of a blissful dreamscape, oh
The lonely nights left over
Pitch black is the colour of my deepest sorrow
The painting of my pacing

Yeah hesitating stay right there
Just react, that's right that (oh, bang)
You're like a Melody, ghost-like silhouette
My endurance, tolerance only up to here, Limit
Straight permanent
Black permanent
Tattoo, scars that can't be removed
Everlasting imprints
If nightmares have an aftertaste
I'm willing to hesitate to this moment, for you
Want you to wake me up now
Come back
(That's why I love you)

Want you to come back
Oh even your every breath I don't want to forget (Thinking about you)
Run to me, come back
Turns out every day without you
Is the district of nightmares
Every day
Want you to come

In the drifting of love I have nowhere to go
In the loneliness of abandonment, who silenced the light?

Want you to come back (Stop hesitating)
In the loneliness of abandonment, it's you who silenced the light
I want you to come back.

WayV Say It [English Translation]

Disappear instantly, leave in the morning
 Girl, who fell asleep quietly?
 Misty eyes can't see the boundary clearly

(Oh) Can't reach the end (A little bit, a little bit)
 A slow-motion plot of sweet lies
 This stubborn love isn't perfect, no more

Drifting through your world
 Chasing your line of sight
 Lost on the other side of the forest of lies

Falling into real lies
 Improvising your performance
 I lost to you once again
 Loved till I was unable to tell right from wrong
 Oh my dangerous, dangerous
 Precariously
 Hanging on the brink of insanity
 I lost to you once again
 The realest lies
 (The realest lies)

(Oh na, na, na) Will you tell me
 (Oh na, na, na, na) The truth?
 (Oh na, na, na) Please, tell me
 (Oh na, na, na, na) The real lie

Almost forgetting your face, as it gradually blurs
 Taking one last glance at you, committing it to memory
 You left my world and it became cold
 Leaving your lies brought back purity

The forbidden lost land in your heart
 As mysterious as a misty forest
 Covered by the secret of thorny lies
 Which sentence is the real you, after all?

I look forward to every sentence you speak
 Till I look down at my hurt from a great height
 Tell me your realest state
 Let me wake up

Falling into real lies (Woo)
 (Hey, hey, hey) Improvising your performance
 I lost to you once again
 Loved till I was unable to tell right from wrong
 Oh my dangerous, dangerous
 Precariously
 Hanging on the brink of insanity
 I lost to you once again
 The realest lies

Afraid, you're not by my side
 Hey girl, let me believe just a bit more
 In the end, two worlds exist
 It's your lie

Falling into real lies (oh)
 (Oh na, na) Improvising your performance
 (Oh na, na, na, na) I lost to you once again
 (Oh na, na) Loved till I was unable to tell right from wrong (Oh na, na, na, na)

I'm unaware of the seemingly endless night
 Hanging on the brink of insanity
 I lost to you once again (Oh na, na)
 The realest lies (Oh na, na, na)

An excellent improvised performance (Oh na, na)
 Isolating your sweet words (Oh na, na, na, na)
 Oh, come and do it, say you like that (Oh na, na)
 Talk to me, girl (Tell me)
 Talk to me (Oh na, na) The truth

WayV Regular [English Translation]

Yeah, yeah
 All the desire, Get 'em all
 Break down the excessive excitement, buzz
 The protagonist of this city, before "CT" there is "N"

We disdain the luxury
 Be the one, one, one
 (Yeah, yeah)
 Yeah, countless nights, at the center of the stage

I be bangin' with my team, we are not surrendering (faith, faith)
 We lead the direction that light flows, in the street oh (splash)

Roaming in the city
 While closing your eyes (Bang bang)
 The dream is gripped tight in my hands
 And lights up the visions I imagined (Pause)

And now we in a "zone"
 Working hard, touching stones to become Gold
 Ones, tens, hundreds, thousands, ten thousands, they're all not enough (yeah,
 yeah)
 Yeah, yeah, falling in my motion (splash!)

We enjoy being looked up at Every time
 Like glowing stars, we don't need to obey the rules, Stop hitting my line
 Dream will build sand into castles, But I'm still not satisfied
 It goes without saying, On the regular
 Let the rules be unexpected, Irregular

We make the world go
 I look down to the sky
 We make the world go
 I put bets on everything to fill up the world, I want it

Insisting to move the bull's eye of the dream to the sky
 We are not the same, I have to be the only unique one

Painting my country at the summit in my eyes
 We never lose, we are limitless
 We do what we do

I'm so clean, so fresh
 I'm born to gather the lights and put on a light show
 Diamonds on my neck
 The source of light revolves around me (Let's go!)
 You gon' hold up, hold up, hold up for a real one

Setting out to the end of the clouds
 Being looked up at makes me a Star
 (Oh yeah, yeah, yeah)
 So fly, so hot, focusing on point, we touch the sky, we're born to be great
 Envy me however you want, I did it all by myself (uh)

And now we in a "zone"
 Working hard, touching stones to become Gold
 Ones, tens, hundreds, thousands, ten thousands, they're all not enough (yeah,
 yeah)
 Yeah, yeah, falling in my motion (splash!)

We enjoy being looked up at Every time
 Like glowing stars, we don't need to obey the rules, Stop hitting my line
 Dream will build sand into castles, But I'm still not satisfied
 It goes without saying, On the regular
 Let the rules be unexpected, Irregular

We make the world go
 I look down to the sky
 We make the world go
 I put bets on everything to fill up the world, I want it

Multi-colored diamonds like a rainbow
 PLR your eyes co-constructed with colors (your brain go)
 Yeah, shining, we flash, forgetting about myself, let's dance
 Body, hair and skin
 As long as there's music, we dance, uh

(Oh, woah) Burn it up, burn it up, burn it up
 This song is the spark in the night sky
 Let the music Wave
 Do it our way

We enjoy being looked up at Every time
 Like glowing stars, we don't need to obey the rules, Stop hitting my line
 Dream will build sand into castles, But I'm still not satisfied
 It goes without saying, On the regular
 Let the rules be unexpected, Irregular

We make the world go
I look down to the sky
We make the world go
I put bets on everything to fill up the world, I want it
