

## **CHAPTER V**

### **CLOSURE**

This chapter presents conclusions from research and suggestions for the people involved in this study and other researchers for further study that might be carried out in similar fields. First of all, researcher will provide conclusions obtained from the discussion described in the previous chapter. Furthermore, researcher will consider findings, discussions, and conclusions to produce advice related to the Student's experiences in using digital resources in learning english.

#### **A. Conclusion**

The conclusions which are divided into two based on the research questions are as follows :

1. According to the discussion of the findings that every students mentioned some of the advantages of digital resources among them is its efficiency of time in work tasks in addition to in terms of time, digital resources can also be accessed anywhere and anytime that facilitates students in learning English and working the duties of the lecturer.
2. It does not close the possibility that if digital resources have a shortage, based on the results of finding and discussion can be concluded that students experience some difficulties among them are paid journals, unclear sources as well as an unsupported Internet network that causes interrupted student learning activities

**B. Suggestions**

Researchers are expected the use of digital media in learning English always improve every time. Teacher and students should update to the recent digital media in order to make learning process keep up with the digital era.

However, still be careful when using digital resources because technology is growing, it cannot be denied that there are some people who misuse it by spreading hoax news
