

## **CHAPTER V**

### **CLOSURE**

This chapter present the conclusion and suggestion about the result of the study. The conclusion addresses the answer of research question is as stated in chapter 1. The suggestions are provided to expert better improvement for teacher, students, and future researchers related to this field.

#### **A. Conclusion**

1. There have been three types of code mixing namely insertion, alternation, and congruent lexicalization employed by Vidi Aldiano in a video content Podhub. The results of this research shows that Vidi Aldiano mostly used, there are 24 of 32 data.
2. There have been three types of code switching namely inter-sentential code switching, intra-sentential code switching and tag switching employed by Vidi Aldiano in a video content Podhub. The results of this research shows that Vidi Aldiano mostly used intra-sentential code switching, there are 29 of 32 data.
3. There have been seven reasons of code mixing and code switching namely talking about particular topic, quotating somebody else, being emphatic about something, interjection, repetition used for clarification, expressing group identity and solidarity, and clarifying the speech content for the interlocutor. The results of this research shows that Vidi Aldiano

mostly mostly used reason talking about particular topic, there are 21 of 32 data.

## **2. Suggestions**

1. The main objective of this study is to explore the different reasons behind code mixing and code switching, this research addresses just a limited aspect of sociolinguistics, leaving many other topics in the field open for further investigation. It is anticipated that this study will often be used as a reference by other researchers.
2. Furthermore, this research can enhance students' understanding of sociolinguistics subjects.
