

In conclusion, Indonesian folk songs can be effective and enjoyable tools for beginner English learning when songs with simple language and clear values are selected.

The songs also contain moral messages, including affection and care, especially shown through family love, discipline and politeness, often seen in the lyrics related to daily life, and cultural identity and patriotism, which help learners appreciate their own heritage while learning English. These songs are effective for beginners because they combine simple English input with familiar cultural topics, making the learning process more enjoyable, meaningful, and less stressful, thus supporting language acquisition.

### **B. Suggestion**

Based on the results of this study, the following suggestions are offered:

#### **1. For English Teachers**

Teachers can use Fuvgis songs as extra learning materials to teach vocabulary and grammar, while also encouraging positive values in class.

#### **2. For Students**

Beginner learners can use these songs to improve their language skills in a fun and relaxed way, while also learning life lessons from the lyrics.

### 3. For Content Creators and Educators

It is recommended to create more educational songs like Fuvgis, which are simple in language but rich in meaning and culture.

### 4. For Future Researchers

Other studies can explore how songs like these work in real classrooms, how students respond, or how these songs affect other language skills such as writing and speaking
