

CHAPTER V

CLOSURE

A. Conclusion

Based on the research results of the eleventh grade students at MAN 1 Kandangan about common error in listening, there are some conclusions as follow:

1. The most common type of errors in listening made by the eleventh grade of MAN 1 Kandangan academic year 2014/2015 is vowel phonemic pair, 73 (27,96 %).
2. The causes of errors based on students' perception at the eleventh grade students of MAN 1 Kandangan academic year 2014/2015 are they do not have enough vocabulary, unfamiliar word, quickly forget what is heard, rarely write what is heard and rarely do listening practice out of class .

B. Suggestion

1. For school, they should provides some facility for listening. For example, laboratory room, audio and earphones for students to learn listening.
2. Teacher should do the best for developing English teaching and learning process by performing better technique and using media to increase students' interest when teaching listening.
3. The students should keep studying and learn more by listening and practice every time.
