

CHAPTER V

CLOSURE

A. Conclusion

The purpose of this research is to know the first language interference on the English words written on banner in Banjarmasin. Besides, it also to know what kinds and the most dominant of error that happen in the English words written on banner. Based on the research and data analysis about the first language interference happen in banner, some conclusions must be paid attention as follows:

1. The first language interference on English words written on banners are two types; Lexical Interference and Syntactical Interference. More specific kinds of interference are Lexical (loanword, and literal translation of L1 preposition) and Syntactical Interference (the use of L1 structure in target language)
2. There are 9 loanwords, 1 literal translation of L1 preposition, and 2 the use of L1 structure in target language made by the owners of banner, so the dominant type of the first language interference occurred is loanword which exist in lexical interference

B. Suggestion

Considering the result of this research, the researcher suggests;

1. In making the banner, the owner of the banner should know the meaning of what they wrote in. So it can be avoided the error in the next banner.
2. It is suggested to people who see the banner with the error written to tell the owner, so they realize and change it to be the good one.
3. To read more and know more about vocabulary, so it can decrease mistakes for the future
