

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusions

Based on the result of the research toward the comparative study of student's score in learning grammar inductively and deductively at Language Development Center group B academic year 2016-2017, there are some important conclusions that can be presented by the writer as follows:

1. The result of student's score in learning grammar inductively at Language Development Center group B is in good category with mean score 75,55.
2. The result of student's score in learning grammar deductively at Language Development Center group B is in good category with mean score 75,36.
3. There is no significant difference in student's score in learning grammar inductively and deductively at Language Development Center group B in the academic year 2016-2017.

B. Suggestions

Based on the findings of research, the writer would like to propose the following suggestions:

1. The English teacher should create comfortable situation in teaching and learning process. Thus, the students will enjoy learning English.

2. The teachers should use the teaching media to make their teaching interesting and motivate the students to communicate in target language.
3. The students should study hard in learning English especially grammar in order to increase their proficiency commonly in English grammatical aspect.
4. For the next researchers, the writer realizes that the study however, has not been satisfactory yet. The writer hopes that other researchers would continue this study to get better.
