

CHAPTER V

CLOSURE

A. Conclusion

Based on the the research and data analysis about the espressive speech acts being used and the most frequent type of expressive speech act, the writer would like to withdraw the conclusion as follows:

1. Type of expressive speech acts that are found in four most reaction videos on Yotube channel Fine Brother Entertainment are approving, disapproving, complimenting, apologizing, regretting, and reproaching
2. Types of expressive speech act that most frequently used in four most popular reaction videos on Yotube channel Fine Brother Entertainment is complimenting.

B. Suggestion

1. In order to understand what people intended to in their utterances, reader needs to be familiar with the expression that people showed and also pay attention with the context where and when the state of affairs is occurred.
2. The authors suggest to researchers to conduct research on speech act and explore more deeply about the expressive speech act because there is still few study that discusses that type of speech act.
