

## **CHAPTER V**

### **CLOSURE**

#### **A. Conclusion**

Based on the research result of the sixth semester students at UIN Antasari Banjarmasin, the writer can conclude that:

1. The students' mastery on acronym, abbreviation and initialism is in fair category. It is based on the calculation of the mean score the students have, that is 63.23.
2. The students' difficulties in acronym, abbreviation and initialism based on the test result in multiple choice and matching is different. The most difficult is initialism (59.09%), while the second difficulty is abbreviation (36.36%), and the last difficulty is acronym (4.55%).

## **B. Suggestions**

1. For the lecturers make students familiar with acronym, abbreviation, and initialism by explain more about it.
2. Give students more words about acronym, abbreviation, and initialism for better learning or increasing vocabulary. Keep them practicing about acronym, abbreviation, and initialism.
3. For the students at the sixth semester of UIN Antasari Banjarmasin, keep studying and learn more about acronym, abbreviation, and initialism. The time is not enough if just in the class for discussing about acronym, abbreviation, and initialism that only once meeting for every subject.
