

## ABSTRACT

**Yahya** : *Internalization of Teenagers Moral Values on Majelis Taklim (an Islamic forum) of KH. Ahmad Zuhdiannor*, under the guidance of (1) Dr. Hj. Salamah, M. Pd. and (2) Dr. Fahmi Riady, S.Th.I, M. S.I. Thesis at Postgraduate Program UIN Antasari Banjarmasin, 2018

Keywords: Moral Value Internalization, Moral Education

Phenomenon in the world of education, is currently very alarming, due to the many negative influences both the influence of the environment and social media. The hope, teenagers must have a commendable character, because they are the next generation of the nation. One of the non-formal education institutions that can provide moral education is *Majelis Taklim*. *Majelis Taklim* (an Islamic forum) is required to participate in inculcating teenagers' moral values in order to produce a good attitude and personality (*akhlakul karimah*).

The location of the research, namely: *majelis taklim* which located at the Masjid Jami Sungai Jingah, held on Sunday night and *majelis taklim* which located at Masjid Raya Sabilal Muhtadin Banjarmasin, held on Friday night. The problems of this research are: What moral values are presented in the study in the *majelis taklim* of KH. Ahmad Zuhdiannor? How the process of internalization of moral values in the study in the *majelis taklim* of KH. Ahmad Zuhdiannor?

This research used field research type with qualitative approach, that is research which describe and analyze phenomenon, event and social activity in *majelis taklim*. The sources of data in this study were teenagers who actively participated in *majelis taklim*, KH. Ahmad Zuhdiannor as chairman of the *majelis taklim*, the organizing committee of *majelis taklim*, people who live around the *majelis taklim*, work program, vision and mission. As for data collection techniques, the researcher used Observation Techniques, Interview Techniques, and Documentation Techniques.

The results showed that: (1) Moral values conveyed through the study in the *majelis taklim* of KH. Ahmad Zuhdiannor includes some moral values, namely: honest, patient, gratitude, happy, tolerance, friendly, generous, sincere, faith and piety. All of these values have been well embedded and can be internalized for teenagers' congregations in everyday life. (2) The process of internalization of moral values in the study in the *majelis taklim* of KH. Ahmad Zuhdiannor is done with three stages, namely: the first stage of recognition and understanding, the second stage of acceptance and the third stage of integration. To support the achievement of internalization process is used the method of *al-mauizhotil hasanah* approach.
