CHAPTER I

INTRODUCTION

A. Background of Study

Character is an identity of human which shown that good or bad. In another word said that character is a mental or moral which marked a person and distinguish one person to others. The researcher are doing something for commicate with another person or share something to the society around us. Character are the total quality of a person's behavior, as revealed in his habits of thought and expression, his attudes and interest, his action, and personal philosophy of life (Robert, 2007: 80).

In Holy Quran surah Luqman (17-18), Allah described about character building.

يٰبُنَيَّ اَقِمِ الصَّلٰوةَ وَأْمُرْ بِالْمَعْرُوْفِ وَانْهَ عَنِ الْمُنْكَرِ وَاصْبِرْ عَلٰى مَآ اَصَابَكَ ۗ اِنَّ ذٰلِكَ مِنْ عَزْمِ الْاُمُوْرِ

وَلَا تُصَعِّرْ خَدَّكَ لِلنَّاسِ وَلَا تَمْشِ فِى الْاَرْضِ مَرَحًا ۗ اِنَّ اللّٰهَ لَا يُحِبُّ كُلَّ مُخْتَالٍ فَخُوْرٍ ۚ

Character building values are good action that issue from good caharacter traits, or because good trait are those generally incline us toward actions that are good for some independent reason such as the intentions with which the are performed them. Teacher back then re expected to teach and make discipline for

their lessons. While maybe not as visibly emphasized today, that expectations remain essentially unchaged. Because of teacher's influential role in the lives of the young people, the public still expects teacher to display behavior reflective ofmoral virtues, such as fairness and honesty, and to adhere to professional codes of conduct (Sugiono, 2008: 45).

As know that in 2013 curriculum there is balance betn the skill, knowledgw, and soft skill or character of student, so that the curriculum is not promote hard skill, but also soft skill are equally important, because soft skill wich will bring the character of student being a good student and an example or not. So that way, this curriculum often called character based curriculum. Curriculum 2013 is prepared to produce generation who ready in the facing the future. Therefore, the curriculum is constructed to anticipate future development, because nowday, our nation is facing nation era that very crucial for our young learners. The morality is the big problem faced by all of stages students, the effect of stern culture has been changed thier attude, loyalty, sincerity, modesty, and filial piety only a cadences in the past. To face about this problem the goverment getting out the new curriculum called curriculum 2013.

Character building is never ending process. Character or dispostion is something that is very important for humans to achieve the purpose of his life ll and safely. Character is the main role in determining attitudes and behavior.

Forming a person's character is not as easy as turning the palms of our hands, character must be built early on. Character building must be developed gradually, gradual and c ontinuous. There is no need to doubt that character education is an

effort that must involve all parties, including families, communities, and school educational institutions. Education generally has a very noble purpose both in forming a strong personality, distinctive character, and many other goals.

Character building is very important in coping with any situation that may trigger tension, the value of character building education is also expected to have a positive effect. With different circumstances, both in the family atmosphere and in the social environment, a person feels depressed. Character education is also supposed to impact the development, development, reform of one's rules, talents and actions and habits and the formation of one's personality for oneself.

A ccording to observations and interviews in online classes now character building is very difficult to recognize because it is not face to face, the way they ask questions in online classes is not as polite as face to face. That is why I took research on character building in online classes because it is important to be polite against teachers and people who are older than us even in online classes though.

This research took place at MAN 1 Banjarmasin because the teachers there teach online and are also one of the favorite schools in Banjarmasin.

Moreover, now live in an era where technology is very rapidly developing. Through the internet now can easily get the information want. In our country, everyone is very close to the internet or social media, almost everyone has a social media account from children to parents.

Social media is a communication and information tool that is used by everyone. On social media everyone is free to express themselves. But sometimes they are so free to express themselves to be impolite towards people who are older

than them, the words they say are sometimes according to the situation and conditions.

The negative impact of social media is very concerning, especially for children and adolescents today, who are the nation's next generation. Hover, there is one thing that can reduce the negative impact, namely through character building.

From the explanation above, the researcher is interested in conducting research on **"IMPLEMENTATION OF CHARACTER BUILDING IN THE ENGLISH TEACHING AND LEARNING PROCESS IN THE ONLINE CLASS"**

B. Research Question

By conducting this research, the writer, wants to investigate a research queation as follow:

1. What efforts do the teacher do in character building in online classes?
2. What are the obstacles faced by teachers when teaching character building in online class?

C. Objective of Study

The objective of this research is to know the objective of this research is

1. To know the implementation of character building in online classes
2. To know the obstacles faced by teachers when teaching character building in online class

D. Significance of Study

The results of this study are expected to provide good benefits that are practical as well as theoretical, among others, as follows:

1. Theoretically:

   The result of the research was really expected to give the benefit, contribute, and to give some informative input what are the efforts that the teacher do in character building in online classes.

2. Practically:

   This research is expected teachers to know more information about what are the efforts that the teacher does in character building in online classes. And also for other researcher, this research is very useful as a reference to improve further research.

E. Definition of Key Terms

To avoid misinterpretation and misunderstanding to this research, the researcher feels necessary to explain some terms dealing with the title as follows:

1. Integrate literature is combine reading materials that contain information regarding the application of character building, and media suitable for online classes. Reading material could be in the form of printed media such as; books, posters and magazines, also could be in the form of digital technology such as; smartphones, laptops, and various software applications that support learning.
2. Character building is very important in coping with any situation that may trigger tension, the value of character building education is also expected

to have a positive effect. With different circumstances, both in the family atmosphere and in the social environment, a person feels depressed. Character education is also supposed to impact the development, development, reform of one's rules, talents and actions and habits and the formation of one's personality for oneself.

3. MAN 1 Banjarmasin is located at Kampung Melayu Darat Street No. 31 Banjarmasin.
