ABSTRACT

Sri fitriani. 2014. Teaching English For Toddlers By Using Youtube. Thesis. English Education Department, Faculty of Tarbiyah and Teacher Training, Antasari State Islamic University. Advisors: (I) Drs. Saadillah M. Pd (II) Fajrianor, S.Pd, M.Pd.

Keywords: (1)Teaching English. (2)Youtube as a Media.(3)The Implementation of Youtube

In line with the development of technological advances, the thinking of children under five is growing, which is balanced with rapid technology. The thinking of these children is influenced by the existence of Social Media, for example, Youtube. Is there any language development from their children?. Kids have a tendency to learn languages faster than adults. But if you live in a monolingual household, it can be difficult for mom or dad to teach their children a language they don't know. YouTube connects you and your child to an entirely new world where you can learn a second or third language from a native speaker. Make sure you dig around for the right channel. There are many small channels that have tens or hundreds of videos available for language learners. This is a way for your child to expand their language speaking abilities and even career options in the future. It's also neat to learn about other cultures.

Language as a means of communication plays very important role in social relationship among human beings. The English language is the first foreign language we teach to children at very early stages of schooling. The primary aim of teaching English for toodlers in the early years of schooling is to motivate toddlers to be ready and have self-confident in learning English at higher levels of education. Some children are born to parents who are polyglots, so they have to acquire two or three different languages. Some others learn second or third language because they have to immigrate to a new country. Others learn English as foreign language because English is not their native language in their country. Teaching English to toodlers then can be beneficial or detrimental to learners. It will be beneficial if the teachers can facilitate learning and enable learners to bring to language learning their curiosity and eagerness to make sense of the world, as a result, the teachers may help the learners are able to overcome their problem even the most demanding tasks with enthusiasm and willingness.

The method used in this writing is watching video site YouTube and can be a valuable tool to teach English and arouse learner independence. Using YouTube both inside and outside the tooddlers can improve conversation, listening and pronunciation skills. YouTube video can also be utilized as regalia to enhance exposure to the world and support authentic vocabulary development. If students and teachers/lecturers have unlimited access to the Internet, YouTube can be a useful tool through which multiple skills in English can be taught. This paper offered possible inadequacy that may come by using online video technology.

ABSTRAK

Sri fitriani. 2014. *Teaching English For Toddlers By Using Youtube* Skripsi. Jurusan Tadris Bahasa Inggris., Fakultas Tarbiyah dan Keguruan, UIN Antasari Banjarmasin. Dosen Pembimbing: (I) Drs. Saadillah M. Pd, (II) Fajrianor, S.Pd, M.Pd.

Kata kunci: (1) Mengajar Bahasa Inggris. (2)Youtube Sebagai Media.(3)Implementasi Youtube

Sejalan dengan perkembangan kemajuan teknologi, pemikiran anak balita semakin berkembang, yang diimbangi dengan pesatnya teknologi. Pemikiran anak-anak ini dipengaruhi oleh keberadaan Media Sosial, misalnya Youtube. Apakah ada perkembangan bahasa dari anak-anak mereka? Anak-anak memiliki kecenderungan untuk belajar bahasa lebih cepat daripada orang dewasa. Tetapi jika Anda tinggal di rumah tangga monolingual, mungkin sulit bagi ibu atau ayah untuk mengajar anak-anak mereka bahasa yang tidak mereka ketahui. YouTube menghubungkan Anda dan anak Anda ke dunia yang sama sekali baru tempat Anda dapat belajar bahasa kedua atau ketiga dari penutur asli. Pastikan Anda mencari saluran yang tepat. Ada banyak saluran kecil yang memiliki puluhan atau ratusan video yang tersedia untuk pelajar bahasa. Ini adalah cara bagi anak Anda untuk mengembangkan kemampuan berbicara bahasa mereka dan bahkan pilihan karir di masa depan. Ini juga rapi untuk belajar tentang budaya lain.

Bahasa sebagai alat komunikasi memegang peranan yang sangat penting dalam hubungan sosial antar manusia. Bahasa Inggris adalah bahasa asing pertama yang kami ajarkan kepada anak-anak pada tahap awal sekolah. Tujuan utama pengajaran bahasa Inggris pada anak balita di tahun-tahun awal sekolah adalah untuk memotivasi anak balita agar siap dan percaya diri dalam belajar bahasa Inggris di tingkat pendidikan yang lebih tinggi. Beberapa anak dilahirkan dari orang tua yang poliglot, sehingga mereka harus menguasai dua atau tiga bahasa yang berbeda.

Beberapa yang lain belajar bahasa kedua atau ketiga karena mereka harus berimigrasi ke negara baru. Yang lain belajar bahasa Inggris sebagai bahasa asing karena bahasa Inggris bukan bahasa ibu mereka di negara mereka. Mengajarkan bahasa Inggris kepada anak balita kemudian dapat bermanfaat atau merugikan pelajar. Akan bermanfaat jika guru dapat memfasilitasi pembelajaran dan memungkinkan peserta didik untuk membawa ke pembelajaran bahasa rasa ingin tahu dan keinginan mereka untuk memahami dunia, sebagai hasilnya, guru dapat membantu peserta didik mampu mengatasi masalah mereka bahkan tugas yang paling menuntut. dengan semangat dan kemauan.

Metode yang digunakan dalam penulisan ini adalah menonton Situs video YouTube dan dapat menjadi alat yang berharga untuk mengajar bahasa Inggris dan membangkitkan kemandirian pada balita. Menggunakan YouTube baik di dalam maupun di luar kelas dapat meningkatkan keterampilan percakapan, mendengarkan, dan pengucapan. Video YouTube juga dapat digunakan sebagai tanda kebesaran untuk meningkatkan eksposur ke dunia dan mendukung pengembangan kosa kata otentik. Jika siswa dan guru/dosen memiliki akses tak terbatas ke Internet, YouTube dapat menjadi alat yang berguna untuk mengajarkan berbagai keterampilan dalam bahasa Inggris. Makalah ini menawarkan kemungkinan kekurangan yang mungkin muncul dengan menggunakan teknologi video online.
