Dari analisis di atas, peneliti menemukan 5 tipe tindak ujaran yang di gunakan Woody sebagai tokoh utama dalam film tersebut.Mereka adalah representative (*claiming, asserting, arguing, complaining, informing, and describing*). Directive (ordering*, asking, forbidding, requesting, asking, commanding, insisting and suggesting*). Commissive (*committing, refusing, wishing, promising, predicting, and hoping).* Expressive *(deploring, thanking, praising, regretting, welcoming, and apologizing).* Declarative (*declaring, confirming, approving and confirming.*
